

RALPH SMITH AT ROYAL OAK

LIBERAL POLICY IS FULLY DISCUSSED

Candidate and Other Speakers Deliver Excellent Addresses.

"Let Laurier finish his work" is a sentiment which finds a whole-souled acceptance from the electors of Royal Oak, the district which gave the first majority for a Liberal candidate on the Island, and which has held to its political faith since.

Ralph Smith held a meeting in the school house there on Saturday night, which was well attended by electors of the district. The candidate was in splendid form, and in a thirty-five minute speech gave abundant reasons why he should again be elected to support the Laurier government and do his share in assisting Canada's greatest premier to complete the work to which he has devoted his life. There is no doubt, from the tone of the meeting and the general feeling in the district, that the Royal Oak people are ready to support a Liberal majority.

David Stevens presided, and other speakers were R. L. Drury and Frank Higgins. The "band of eight" was only half present, that half being clubbed together to hire an express wagon to drive them out, only one of them took any part, and he held himself down until the close of the meeting, save one interruption while Mr. Higgins was speaking. The little party was without any backing in the meeting, the electors of the Oak having no sympathy with the chimaera of Socialism.

R. L. Drury.

R. L. Drury referred to F. H. Shepherd's declaration in favor of total exclusion of Japanese, and contrasted it with the total silence of Mr. Shepherd's leader, R. L. Borden. Neither Mr. Shepherd, nor Premier McBride, nor any other Conservative speaker, dared to mention Mr. Borden in this connection, and conveniently ignored the fact that he had supported the treaty. Mr. Drury said he had thought that with the settlement of the matter effected by Sir Wilfrid Laurier, immeasurably superior to this was to the settlement by Premier McBride and Mr. Borden, and with the machinery provided for enforcing the agreement made with Japan, it was as the Colonist said, three months ago, dead and buried and could not be made a football of. Now, with an election on, the Colonist was trying to make an issue out of this question.

A copy of the Bowers Act was produced by Mr. Drury, and from it he read the remedy the British Columbia government proposes to apply to the Japanese problem. Describing the most general study of English in the Japanese schools, as seen by himself, Mr. Drury showed how useless the test of reading and writing in English or a European language would be to keep out the Japanese. The settlement effected by Sir Wilfrid Laurier not only effectively shut out the Japanese laborer from Canada, but preserved for this country the large and exceedingly valuable market for Canadian products in that land. If Mr. Shepherd was in a position to carry out his policy of exclusion it would result in the loss of the Japanese market, and the establishment of a line of splendid steamers on the Pacific, its competition would bring rates down.

The great stock in trade to-day of the Conservative party, Mr. Drury said, was scandal. It was one thing to hint at and charge scandal, and another very different thing to justify it. The Conservatives had never yet been able to prove one single charge made against the government or any member of it. One of the latest misrepresentations was that of Premier Roblin, who said that certain people had obtained 30,000 acres of coal lands for nothing. He neglected to say that the lands had been given by the British Columbia government, and that the Dominion government had secured from the U. P. R. 50,000 acres which was being held for the public and assured to the inhabitants of British Columbia cheap coal. Another scandal-monger was Mr. Ames, one of whose magic lantern charges had to do with what was known as the Roblin's irrigation lease. But when Mr. Ames got to Medicine Hat, near which the lands were and the board of trade of which had warmly endorsed the lease, he was dumb on that subject.

Mr. Drury took up the matter of expenditure and showed that the Laurier government was spending money wisely and in the interests of the people.

Frank Higgins, a native son, made a stirring speech, in which he pointed out the real issue of the campaign and eliminated a number of supposed issues. He strongly advocated the election of Mr. Smith. When the people considered the record of their member, he said, it was impossible for any fair-minded man to refuse him re-election. He had helped to get the bounty which was doing so much to develop the head industry; he had supported the chartering of the Vancouver, Victoria & Eastern Railway, which was opening up a fine country; he had secured necessary railway subsidies and large expenditures on public works on the Island; he

AERONAUT'S MIRACULOUS ESCAPE AT BERLIN

Balloon Bursts, but Torn Fragments Form Parachute of Salvation.

Berlin, Oct. 12.—Two American aerobats who had entered the international air race, which started yesterday before 75,000 spectators from Schmargendorf, ascended to a height of over 2,000 feet when their balloon burst. They plunged downward with terrific velocity for hundreds of feet.

Instant death seemed certain when they should strike the earth, but the torn fragments of the balloon envelope miraculously shaped themselves in a parachute which arrested their fall-like plunge. They struck the roof of a garden house, and came out of the wreckage with only slight injuries.

The two heroes of the hair-raising adventure were Holland Forbes and August Post, both of New York. Their both men live to tell the tale was unprecedented in the annals of the ballooning, that they escaped with scarcely a scratch is almost unbelievable.

No ill effects.

Berlin, Oct. 12.—A Holland Forbes and August Post, the two American aerobats who yesterday had such a narrow escape from death, when their balloon, "The Conqueror," burst in the air at an altitude of 2,000 feet, have completely recovered this morning from the effects of their thrilling experience. Mr. Forbes drove out this morning and examined what was left of the balloon prior to having it packed for transportation back to New York, whither it will be shipped tomorrow. The envelope is torn into five pieces and there are also in many holes as a result of its contact with roofs.

TWO NEGROES LYNCHED.

Mississippi Mob Takes Vengeance on Men Accused of Shooting Railroad Conductor.

Lulu, Miss., Oct. 12.—Jim and Frank Davis, negroes charged with having shot and probably fatally wounded John C. Kendall, a conductor on the Illinois Central railroad, were taken from jail here last night by a mob and hanged. The shooting of Kendall occurred aboard a passenger train near here late yesterday when the conductor endeavored to quiet the negroes, who, it is said, had been drinking and created a disturbance. Another negro who participated in the shooting escaped, but is being pursued by a posse.

Halifax, N. S., Oct. 12.—John Richardson, of Sable River, 80 years old, while gathering firewood for the underbrush, was mistaken for a moose by John Chivers, and was shot and almost instantly killed.

YOUTH KILLS FATHER.

Shocking Double Crime During Beer Drinking Celebration in Montreal.

Montreal, Que., Oct. 12.—Two murders were committed last night at 21 Saint Hyppolite Lane by an Italian. A youth was first shot and killed by his own father and then fired at a second son, killing him instantly. Before the murderer had a chance to escape he was arrested. The youth is not yet twenty years old. He is Michele Corbelli. His father's name was Domenico Corbelli and the second victim was Francesco Martelli, tenant of the house where the shooting took place.

Just before the tragedy the house was the scene of a celebration. Martelli, one of the men now dead, was giving an entertainment in honor of his return from Ottawa after a successful business trip. Two dozen bottles of beer had been bought and the contents were being consumed when the tragedy, which ended in the double tragedy, took place.

Except the murderer and his victims two small children were the only occupants of the house at the time.

TO U. S. VISITORS

Tokio Ablaze With Bunting in Honor of Pacific Coast Business Men.

Yokohama, Oct. 12.—Yokohama is a blaze of color this morning with American and Japanese flags flying from every building, in honor of the delegation of Pacific coast business men who arrived at 7 o'clock on the Japanese Tenny-Maru from San Francisco. The visitors were greeted at the dock by a crowd which numbered hundreds of representative business men of Japan assembled from the cities of Tokyo, Kyoto and Osaka. The carefully prepared programme of entertainment for the American visitors commenced as soon as they stepped ashore and every day of their stay in Japan will be completely filled with receptions. On Thursday the Americans will be the guests of Count Juro at a luncheon given in honor of the visitors.

DIRIGIBLE TRIALS.

St. Petersburg, Oct. 12.—The trials of the Russian dirigible balloon which recently came to grief during a voyage over St. Petersburg, have been resumed. The number of short flights was manoeuvred rapidly, both vertically and horizontally. Owing to a motor defect the balloon had to descend at one time yesterday, but rose again under its own power.

WOMAN FALLING INTO VAT OF WINE IS DROWNED

Overcome by Fumes She Suffocates Before Assistance Arrives.

Santa Rosa, Cal., Oct. 12.—Mrs. Geo. Collier, wife of a rancher of Occidental, was drowned yesterday in a vat of wine. The woman was visiting the winery on the ranch and had climbed to the edge of a large vat partly filled with wine. In some manner unknown, but probably through being overcome by the fumes, Mrs. Collier lost her balance and fell into the huge vat. Before assistance reached her she had been suffocated.

St. Petersburg, Oct. 12.—Only the shadow of her former self, with nerves shattered from what the doctors fear isipient consumption, Empress Alexandra has refused to take the only possible course that will save her life—the abandonment of Russia's rigorous climate for the sunshine of Southern Europe.

She will take the advice of the court physicians and the issue only on one condition. She announced today that either the Czar or the Czarovich accompany her. For political reasons this is impossible.

The fear of terrorist violence has reduced her to such a condition that she believes she would never see her husband or son again were she to leave them. With steam up and every sailor at his post, the Imperial yacht Standart set out for many days for the Carina's arrival. If it were not for his advisors, the Czar would permit the youthful Czarovich to go with his mother, but it is considered certain that if the Czar were killed or even died a natural death during the Czarovich's absence, the terrorists would overthrow the dynasty.

LAURIER WILL SWEEP THE WEST

IMPARTIAL VIEW OF POLITICAL OUTLOOK

An All-Canadian Triumph is Predicted for Premier by E. W. Thompson.

E. W. Thompson, the veteran Canadian correspondent of the Boston Transcript, is now making a tour of the West "sizing up" the political outlook.

He has already gone over the situation in Ontario and Quebec and has convinced himself that Sir Wilfrid Laurier will be triumphantly returned, because he deserves to be on his record and because the "scandals" exploded by the opposition had no basis in truth, as Mr. Thompson satisfied himself by personal investigation. Writing from Winnipeg to the Boston Transcript, one of the greatest of American journals Mr. Thompson says:

"Talk about hustlers! In December, 1905, nay, 1906, there was not one mile of Grand Trunk Pacific track laid out between Onondaga and Winnipeg, terminating presently at Wainwright, Alberta, were opened to a tri-weekly service of mixed trains. This fact, and the undertaking of the government of a railway to Hudson Bay, should seem to secure the triumph of Laurier's party in the West and general elections of Oct. 25th. But it is not quite safe for me to express any opinion on that matter, even in the far distant Transcript. The 'other fellows' are, metaphorically, hanging round the neck of the government, and women here for the wearing of the green. My own gray scalp has been hanging at the belt of a Winnipegger, Mr. Bludner of the Tory Telegram, ever since the ninth instant, without my knowledge. He took it simply because the Free Press, his local and Liberal rival, had ventured to publish a long article of mine respecting the factors of the Canadian political situation which the Transcript editor had head-lined as 'A Judicial Review,' or words to that effect. My crime was to have evinced a purely speculative opinion that Laurier will win for the fourth time. Mr. Bludner described me as 'colors of dreadful dye,' 'mercenary,' 'treacherous,' 'egregious vanity,' 'hiring,' 'the deuce knows what, not my friends here affected scarcely to recognize the picture, and one of them brought it, laughingly, to my notice. Nevertheless, it is necessary to entreat Bludner's scalp, just by way of softening the gaiety of provinces. A whole day lost! And an autocar waiting to give me a lengthy whirl! Well, if Mr. Bludner shall publish my reply and then feel his scalp to be firmly in its proper place, mine is all well with the ferocious Torontonian."

"Dangerous though it be, the duty of correctly informing the many Canadians and other Transcript readers of Boston, requires here an UNDOUBTING PROGNOSTICATION OF LAURIER WILL SWEEP THE WEST ALMOST BY THE ODDS OF OPPOSITION MEMBERS. All his friends here say so, and his opponents scarcely venture to minimize the calculations. This is really very important, because if the West goes Liberal, as usual, and the eastern province on the whole do not, the situation of the gravest political danger to Canada will be created. I shall not expatiate on what all Canadians will instantly understand. A tremendous turmoil of agitation would certainly ensue on the prairies, one sure to unsettle business, and to alarm as part of the Dominion. For Laurier has been the bold, persistent developer of the West. His opponents, by having antagonized him at almost every point of that policy, have become so wedded to its opposite that it seems impossible they should take to his methods of advancing this region. It is inhabited by the most vigorous, bold, clever people. They cannot be checked with impunity. That is an old truism of Canadian politics. But, really, it is not necessary to indicate results, since NOTHING IN THE FUTURE CAN BE SEEN MORE CERTAIN THAN THAT THE 26th OF OCTOBER WILL GIVE SIR WILFRID A DOMINION MAJORITY FULLY AS EFFECTIVE AS HE GAINED IN NOVEMBER, 1904."

This is the impartial estimate of a non-partisan correspondent writing for a journal which has no interest in the success of either party.

TO DEAL WITH PROBLEM

OF UNEMPLOYMENT

Business Before Imperial House Which Opened Autumn Session To-day.

London, Oct. 12.—The autumn session of the British parliament was opened to-day. The entire ten weeks of the sitting will be taken up in consideration of government measures, the most important of which is the Licensing bill. The measure will pass the House of Commons, but in the House of Lords it will be either thrown out or amended and the controversy of last year between the houses will be renewed.

It is believed that an agreement will be reached with respect to the Education bill and that this measure, being quickly passed, will make way for the introduction of another Irish land bill as well as measures dealing with the problem of the unemployed.

Lord Northcliffe Talks in New York on Paper Tree Problem.

New York, Oct. 12.—Lord Northcliffe, the head of the famous newspaper empire, which own the London Daily Mail and many other English publications, accompanied by Lady Northcliffe, his mother, Mrs. Harmsworth and Mrs. Alington Douglas-Pennant, is here to take two months' holiday, and incidentally to watch the election in November.

"Personally I have come for a little holiday, to look on at the election and to talk with many old American friends," he said. "I notice that some of the American newspapers are smaller in size than they used to be, and I fancy they have not even yet reached the limit in that direction. While paper must inevitably rise in price, prodigious extravagance in the cutting down of forests, forest fires and the increased demand for the wood of the spruce tree caused by the growth of newspapers all over the world must have only one end, unless some of your gentlemen help the situation by discovering a substitute for wood pulp. Some 5,000 different materials have been tried, but vainly. There is nothing like wood."

"Even American resourcefulness and initiative cannot grow a paper tree in fewer than 25 to 50 years. Therefore, in my opinion, many of your daily journals must reduce their size or increase their price in the future. I am in favor of the smaller, rather than the larger newspaper, although I have no rooted prejudice either way."

PEACE PROBABLE

IN NEAR EAST

Powers to Find a Friendly Solution

Servia is Less Belligerent—Russia's Claim to Passage of Dardanelles.

London, Oct. 12.—The news received this morning from the storn centres in the Near East confirms the belief held in London that the powers will find a friendly solution of the crisis which has agitated Europe for more than a week. Servia, it is now thought, has fallen in line with the other states directly interested, and is taking a more quiet view of the situation. The resolution of the Servian national assembly, passed this morning, which amounts practically to a vote of confidence in the government, has taken the matter of Servia's attitude toward Austria-Hungary out of the hands of that easily swayed body, and placed it with the cabinet. The members of the cabinet are aware of the actual state of affairs, and doubtless will heed the warnings of the powers and take no rash steps. The powers can, therefore, continue negotiations in the matter of an international conference without fear of an interruption by the outbreak of hostilities among any of the Balkan powers.

There is no reason to believe that the Russian mission of foreign affairs, in asking for a conference, desires to reopen the entire Near Eastern question. That he is asking for something, however, is confirmed by a statement made to-day by an official of the Russian embassy. This diplomat said:

"Great Britain cannot adhere to the stand she has taken, namely that the conference must be confined to the actions of Bulgaria and Austria-Hungary."

The cabinet had a long meeting this morning at which Foreign Secretary Sir Edward Grey set forth the position he had taken and explained the views of Ambassador Iswolski. At the close of the meeting the foreign office announced that it had nothing to say at present.

Servia's Nationhood.

Belgrade, Servia, Oct. 12.—At an extraordinary session of the Skupstina this morning the following resolution was unanimously passed: "The Skupstina, after hearing the explanations and the steps taken by it, expects vigorous activity will be displayed for the protection of the nation's threatened interests. With this object in view the Skupstina will support the government to the fullest extent."

The Skupstina has sent an encouraging telegram of greeting to the Montenegrin national assembly which assembled today and voted an extraordinary credit of \$3,200,000 to the ministry of war.

War Fever in Montenegro.

Cettigne, Montenegro, Oct. 12.—The Montenegrin national assembly opened here yesterday in extraordinary session. The war fever rising from the annexation by Austria-Hungary of Bosnia and Herzegovina which already is running high, has been strengthened by a bellicose message to parliament from Prince Nicholas, who declared that the annexation of these provinces had imposed a crying shame upon the people of Montenegro, and that the people were prepared to sacrifice their last drop of blood unless the peaceful endeavors now on foot resulted in righting this grievance.

The message was received with cheers and other demonstrations of approval. Dardanelles Question.

Paris, Oct. 12.—The Temps in an editorial expresses hope that Great Britain will possibly give Russia satisfaction in the matter of the Dardanelles. It reviews the history of the struggle of the strait to show that it was not closed in the interests of Turkey but of the other powers, and upon the theory that frankness is the best policy, recalled Cyprus and Egypt to show that Great Britain has not always been the disinterested friend of Turkey.

The Temps thinks that the Anglo-Russian entente justifies the return in the Dardanelles, so irksome to Russia, being modified. It argues that it would be possible for a new arrangement to be reached, conciliatory, to the interest of all and without danger of humiliating Turkey, and suggests the application of the rules ratified in 1863 neutralizing the Bosphorus and placing it under a joint commission.

"A new, sincere and less vexatious arrangement," says the Temps, "seems to us to be desirable as a guarantee for the future."

TO-MORROW EVENING**

**Hon. William Templeman and
Others Will Address Gath-
ering in Institute Hall.**

To-morrow evening Hon. Wm. Templeman will address the electors of the city in Institute hall. The meeting will open at 8 o'clock, and in addition to the minister of inland revenue other speakers will be present. These will include R. L. Drury, Col. Gregory and others.

Hon. Mr. Templeman will deal with the subject of better terms and the Songhees reserve question. Mr. Drury will take up the Astoria question. The general policy of the Liberal government will be dealt with by Colonel Gregory.

Manager Shaw, of the Klaskan mines on the west coast of Vancouver Island, who was reported lost, has been heard from. He was thought to have been drowned while cruising in a sleep with his bride. He has returned safely.

Rev. T. Albert Moore, secretary of the Dominion Lord's Day Alliance, delivered an address yesterday afternoon in the Y. M. C. A. rooms on the subject of the Lord's Day Act. In the forenoon he occupied the pulpit of the Congregational church, and in the evening preached in St. Andrew's Presbyterian church on Sunday observance.

The Heavers and All Stars baseball teams yesterday played a double header in Seattle, on which they split even. The first game went to Vancouver by three to nothing, while in the second the All Stars won out with three to one. In the first game Nordyke ran two of the three runs. The games were distinctive for sensational fielding on both sides.

THE PRIZE BABY.
Award Made at Southampton in Connection With Exhibition.

As is the annual custom, there was a baby show at Southampton on Friday afternoon in connection with the exhibition. A reward had been offered abroad that this would be paid to the entries this year were not as numerous as usual. It was found, however, that several proud mothers had brought their offspring just for this event. The babies were dressed in their best and each mother was confident of winning a prize.

A few minutes before 5 o'clock the crowd began to gather before the main entrance of the agricultural hall and on the steps were three mothers and a father each holding a baby. Judge Quinn stood before them and looked on in ever critically. The winner, Norman McKenna, was a fine baby and certainly worthy of a prize.

GREAT HOME RUN HIT GIVES CHICAGO VICTORY

Exciting Pitchers' Duel in Second Game of World's Baseball Series.

Chicago, Ill., Oct. 12.—Chicago Cubs, fighting brilliantly to win the hardest game of the world's series, fell upon "Wild Bill" Donovan in the 3th inning to-day and won the second game of the series in a desperate struggle that gave them victory by 4 to 1. Before a big crowd, but much smaller than expected, Overall and Donovan fought out the greatest pitchers' duel of any world series, and while the crowd went wild, they reeled off, inning after inning of perfect pitching. Behind them, the two teams played grandly. Evers and Finkler, Stiefel and Downs and Cobb making plays that brought the crowd to its feet with thunders of applause.

Both teams realized that the game meant the series. The Tigers had planned all their hopes and all the hopes of the American league, upon Donovan. If "Wild Bill" with his now semi-civilized curves could stop the Cubs there still was hope that the American league might regain its lost prestige in the baseball world and wrest the proud title from the Cubs.

For seven and a half innings the teams raced side by side and neither team was giving a wonderful exhibition. Overall, using his terrific speed, pitching underhand, overhand, and breaking his curve like a flash across the outside corner of the plate. Three times in different innings the Tigers managed to get men to first. When Donovan came to bat in the eighth inning his famous smile was broader than ever, and the crowd, that was singing and praying for victory for the Cubs, arose and cheered him, with a frantic outburst of applause compelled by admiration of his great work. And then suddenly Donovan, the hero, broke and the Cubs got him. The game had reached its psychological crisis, something had to break, and it was "Wild Bill" and with him the hopes of Detroit and the hearts of the Tigers broke. One slow bounder down towards third base, a frantic race for first, and then Tinker made himself the hero of Chicago. With a terrific drive into the field, over a near right field fence, Tinker put an end to the doubt, and as long as baseball endures, that home run hit of Tinker's will remain. That hit settled the game, and in all probability settled Detroit's hopes for the championship.

Detroit Wins.
Chicago, Oct. 12.—(Later)—Detroit to-day defeated Chicago in the third game of the world's series by the score of 4 to 3.

PEACE PROBABLE IN NEAR EAST

(Continued from page 1.)

Britain's Attitude.
London, Oct. 12.—As soon as the business session of parliament was opened, Premier Asquith was questioned with regard to the situation in the Balkans, and in reply said:

"As the secretary of foreign affairs, and myself already have stated in public, it is impossible for this country, in the interests of existing treaties, to recognize the alterations made therein by individuals, and we hold to this principle. We regard the events that have taken place in the Near East as questions for consideration by the powers with the view of arriving at a settlement which shall show due regard to the interest of Turkey and any other state which may have been prejudiced by recent changes and we trust that a solution will be found."

Servian Aggressions.
Berlin, Oct. 12.—The Lokal Anzeiger published a dispatch from Belgrade saying Servian customs officials on the frontier have taken forcible possession of a Hungarian customs house, and that the people have burned another Austrian flag on the public square.

According to this communication, Servian customs officers from the town of Sababatz went over to the island of Balutza, which is in Hungarian territory, and drove out from the settlement there between thirty and forty Hungarian customs employees by threatening them with armed force. The Servians then took possession of the Hungarian customs station, which they continue to hold. They have been reinforced by Servian gendarmes. The people of Sababatz are celebrating this event joyfully.

A band of Servian demonstrators boarded an Austria steamer at Belgrade, tore down the national flag and carried it into the square, where it was burned. The Servian government, the correspondent says, in conclusion, appears to be unable to withstand the warlike tendencies of the people.

Crete's Union With Greece.
Crete, Oct. 12.—The Cretan parliament met this morning and formally voted the union of the island with Greece. Most of the delegates were not present.

DRAFT IN PRISON.

An investigation into Sing Sing prison methods reveals the fact that prisoners have been able to purchase immunity from enforced labor and other prison conditions of prison life if they had the money to pay for it. The scale of payments was \$50 for six months immunity; \$100 for one year; \$25 for the second year, and \$500 and upwards for five years. The exposure was brought about by John W. Wooten, a former New York lawyer of prominence, while serving time for embezzlement and who secured a pardon for his efforts.

CRUSHED TO DEATH IN AUTO'S MAD WHIRL

New Yorker Killed When Machine Crashes Through Wire Fence.

New York, Oct. 12.—Martin Conly, junior, an employee of the comptroller's office and son of Martin Conly, ex-assemblyman and Democratic leader for the second district of Brooklyn, was crushed to death under a 40-horsepower auto early to-day when the machine which was whirling along at forty miles an hour, leaped from the road, crashed through an iron fence, and landed bottom upward in the open subway cut of the Long Island railroad at Hoyara and Atlantic avenues, East New York. In the machine with Conly was Alfred Overmend, a chauffeur, employed by Portus Thompson, a Brooklyn real estate agent. Overmend was seriously hurt.

The police say the car had been taken out of the garage without the permission of Mr. Thompson. Young Conly was 22 years of age, and Overmend was returning from Coney Island, where they had gone last night.

ANOTHER TORY SPLIT.

(Special to the Times).
St. John, N. B., Oct. 12.—The Standard (Conservative), says: "Col. M. L. A. W. recently became a Conservative candidate for the Commons, for Victoria and Madawaska, in finding many of his old colleagues and supporters in the provincial contest strongly opposed to his retirement from the local field and have asked the Conservative of the two countries to call a convention to select another federal candidate. They assure the re-election of Pius Michael, a Liberal ex-M. P."

LARGE WOLF SHOT IN SOOKE HILLS

**Evidence That There are a
Number of Them Roaming
Woods.**

C. L. Harrison last night brought in a fine wolf yesterday by his brother, V. B. Harrison, of Ladysmith, in the Sooke Hills. The animal is now on display at Harrison's store, Government street, and will be mounted by a local firm. The two brothers had been out four days and report that besides the wolf they accounted for one deer. The first three days of the trip were spent in hunting for grouse, but a few birds only were obtained. They report having seen altogether nine wolves, and that the birds have now taken to higher ground, evidently having been driven out by the wolves. Deer was also scarce apparently from the same reason.

Several parties were out Sunday but those who returned from the woods near the city were without game, and only a few of the hunters who went far afield returned with bags of any consequence. Several parties returned to the woods this morning for a few days' sport, among them being J. T. Hillis, Mr. St. John, J. E. Miller and George Courtney, who left the Driford at 11 a. m. bound for Goldstream.

CANARD EXPLODED.
Transcontinental Contractor Gives the Lie to McGarry Charge.

(Special to the Times).
Montreal, Que., Oct. 12.—M. J. O'Brien, of Montreal, a contractor on the transcontinental line, who appears to have been designated in the McGarry speech a few days since as giving money for election purposes, made the following statement to the Gazette: "The charge that I had anything to do with the document stipulating I was to pay a rake-off in connection with the transcontinental contract, or that I made any promise to the government, or to any of the agents, is absolutely false from the beginning to the end, I know nothing of such an agreement, and had nothing to do either near or far with such a transaction."

The regular monthly meeting of the Victoria Poultry and Pet Stock Association will be held to-morrow night in the parlors of the Queen's hotel. A full attendance is desired, as business of importance in connection with the next annual show, will be transacted.

ALL SUNDAY GAMES ARE NOW ABOLISHED

**Nanaimo and Ladysmith Fall Into
Line With Victoria's
Decision.**

The Pacific Coast soccer league executive met at Nanaimo last night to listen to the protest lodged by the Victoria District association league against the playing of the league games on Sunday. The result of the meeting is that both Ladysmith and Nanaimo have now agreed to waive their right to play the matches on Sunday dates. This outcome was the result of the protest sent from Victoria, which was backed up by the delegates from Vancouver. Seattle fell into place with the new proposal and Nanaimo and Ladysmith delegates went to the meeting fully empowered to waive the dates on behalf of their clubs. It was found the majority of the cities in the league were in favor of a revised schedule. Surprise was occasioned by the absence of the Victoria delegate, but the silent protest had all the necessary weight in the matter. The outcome is that the schedule will be revised and the games scheduled for Sundays will be played on other dates. The revised dates will be determined at the next meeting of the Pacific Coast league, to be held in Vancouver the last day of this month.

The match at Nanaimo played yesterday against Seattle was won by the home team by a score of five goals to one. Seattle is now confident of making a good showing before the close of the season.

PREDICTS HIGHER PRICES.
Scottish Farming Expert Says Canadian Grain Will Soar.

Twenty Scottish agricultural experts have left for their homes after touring Canada. The commission, composed of Scotland's most distinguished scientists on matters relating to the soil, prior to their departure, employed in the Dominion for raising crops, and having gathered enough lore, will impart what they know to farmers in their own country. It is reasonably claimed that this will give the proposed Scottish settler a fair idea of Canada and its agricultural resources and methods, and through the teaching of the commissioners they will know in a degree what to expect when conducting a farm in Canada.

One of the grain experts, William Henderson, of Coupar-Angus, in an interview before leaving Canada, gave it as his opinion that the price of Canadian wheat would never decrease. He mentioned that this was due to conditions of the new prevalent here. The people in the West, in general, were living now as they would never live in the future. People in the farming districts would soon demand higher living, if they would stay, and this would result in the grain soaring up. Farmers were now flocking into the country from all quarters of the globe, and they lived rough lives in the hope that the future would be brightened by better conditions. Mr. Henderson advised that the government tax all unoccupied land held by speculators in view of possible higher prices.

**British Steamer Haleside is
Total Wreck — Crew
Brought to Safety.**

Nassau, New Providence, B. W. I., Oct. 12.—The British steamer Haleside, from the Azores in ballast, for Key West, met a hurricane on October 1st, east of Abaco Island. The wind was terrific and the barometer fell to 29.0 inches. The ship drove clear over the reefs and is a total wreck. The crew was brought here safe. Several schooners were swept out to sea from Nassau harbor on October 2nd and driven ashore on Eleuthera Island, fifty miles distant, but were only slightly damaged.

FATHER CAINE ON CONGRESS

ELOQUENT SPEAKER

GIVES IMPRESSIONS

First of a Series of Sermons on Great Gathering.

St. Andrew's (Roman Catholic) cathedral was crowded last night to hear Rev. Father Caine give some of the impressions he gathered from attendance at the great Eucharist Congress in London. The eloquent father returned during the week, and his address last night was of the most interesting character.

He took for his text the words used by Cardinal Vannutelli in preaching before a London congregation. They were, "For there hath stood one in the midst of you whom you know not of."

With magnetic power, said Father Caine, the great cardinal just before the opening of the congress held the vast congregation spell-bound. Assembled there was the society from the west end of London and the cardinal was not afraid to tell that society in London of their sins.

Rev. Father Caine, in referring to the opposition which has been stirred up in England by the congress, said he did not believe this opposition was the voice of Protestant England. He was sure it did not voice the Protestant sentiment in Canada.

The congress, he said, was an assembly of cardinals, bishops, priests and the duty to show its faith in the blessed sacrament. The delegates realized that the sanctity of the Catholic truth was intimately connected with the blessed sacrament. The two dogmas of the Catholic church that had been attacked were the supremacy of the Pope and the blessed sacrament of the Eucharist. The congress represented a rallying to the defence of these.

England aroused at the time of the reformation had taken away the blessed sacrament from the tabernacles. In the words of Mary Magdalen: "They have taken away my Lord, and I know not where they have laid Him."

It was not surprising, said the preacher, to hear the priests rally to the defence, but the laity were heard to speak with equal fervor. With the premier nobleman of England, the Duke of Norfolk, at their head the laity was represented at all times. Pope Pius sent his representative in Cardinal Vannutelli, who as Papal legate took the place of the Pope himself. No legate had set foot in England for many years. The iron of ultra Protestantism was raised in consequence. For centuries the Pope was represented at the coming of the kings of England. When a feeling was aroused at the time of the reformation against the presence of a legate the practice had ceased. With the arrival of Cardinal Vannutelli in England it was not to be wondered at that he was given a grand reception by Catholic England. Recognizing in him the one who took the place of the Pope they showed their loyalty to the Holy See.

The message from congress, said Father Caine, was that in Britain, Columbia, in Victoria as elsewhere, there must be more frequent communion.

At the congress there were eight cardinals, the largest number ever on British soil. "No wonder ultra Protestantism was stirred," said the speaker. There were bishops from all parts, and over 4,000 priests. Belgium and France were largely represented. This showed that France was still faithful in spite of the attacks upon religion there. There were so many French present that the programmes were printed in both French and English.

Father Caine drew a picture of the impressive parades which the children's parade and service played in the gathering. There were 18,000 children from the Catholic schools present in the parade who received the blessing of the legate. As the children marched the streets singing there was no disturbance.

Another impressive service was that attended by 12,000 men in Prince Albert hall on the Saturday night before the close. A hour before the time of commencing it was packed with men who had paid five shillings each for admission. Protestants who could have seen that assemblage would have been forced to the conclusion that what gathered there were working bees looking into Catholics could not help but thank God that he was a Catholic. It was at that meeting that the archbishop of Westminster made known that the government had interfered with the plans for the procession the next day. It was announced that the prime minister had shown himself a coward. Permission

Prescription Promptness

It's human nature for people to want things in a hurry and it seems to be inborn in every one to want prescriptions in a hurry. But that does not bother us. Our system of handling prescriptions is so thoroughly developed that we put up prescriptions with the least possible delay and without error.

had been given before, but in reply to a demand from a certain section an old law which had fallen into disuse was revived. Protestant societies had met and protested. He felt that good would come of it, however. The archbishop of Westminster explained the situation. The premier had asked the Catholic Marquis of Ripon to ask the archbishops not to have the procession. "Mark the bravery of the prime minister," said the speaker. The archbishop sent reply to the prime minister that permission had been given and the arrangements were all made. An old law was dug up. The archbishop, however, said "No. If the procession is stopped one must be in a position to say the government stopped it." The prime minister said "Yes" and the government stopped it. The excitement, Father Caine said, was intense. It was felt that it was a blow to the creed. "If you could have heard the hissing," said he. There were laws in existence which the British were ashamed of and which were not put in force.

"We are now breaking the law," said Father Caine, "in worshipping in a building with a steeple." It was true there was a law forbidding Catholics to hold ceremonial processions, but that law was not observed. The British flag and the flag of the Pope were hung side by side throughout all the proceedings. One delegate from Montreal told of processions held there and the protection for them in their procession was that of the British flag.

Socialists, Anarchists, Suffragettes, the Salvation Army and others had processions, and no interference followed. The opposition, he felt, would do good, however. It would attract attention to these laws and lead to their repeal probably. If not then the British could boast of her liberty. It had already done good, as it made the real Britishers ashamed of their laws.

The procession was held. By command of the prime minister the blessed sacrament was not carried. Only the sacramental Lord was prohibited from the procession. As the procession passed there was little disorder. Hisses came only from the lowest classes. From the Protestant clergy and from the newspapers nothing but courtesy was shown throughout. In front of Westminster cathedral the legate blessed the people. Twenty Catholic peers of England were there as a body guard. They had sworn allegiance to their sovereign on earth. They were proud also to show their allegiance to their sovereign in heaven.

In concluding, Father Caine said the message from the congress was that they must increase their devotion to the blessed sacrament. They must love for the holy sacrament. They must be faithful to Sunday mass and to week day mass as well, and attend it more frequently.

Father Caine's impressions of the Eucharist Congress conveyed in his address last night is to be followed for several Sunday nights by addresses on the most important features of the great gathering.

JAIL IS BESEIGED BY INFURIATED MOB

Negro's Crime Leads to Exciting Scenes in Spartanburg, S. C.

Spartanburg, S. C., Oct. 12.—In the heart of Spartanburg, with its 20,000 population, a mob of infuriated citizens, numbering nearly 2,200, fought ineffectually on Saturday with the military and civil authorities for the possession of John Ruby, a negro, who assaulted Miss Lily Dempsey earlier in the day. Saxon Mill village, three miles away.

Four persons were wounded, one of them seriously, and John Sparks, a restaurant keeper, was arrested and held without bail on the charge of shooting Sheriff Nichols, who was slightly wounded in the exchange of shots between the mob and the authorities while they were protecting the trembling prisoner in the jail.

At a late hour about 150 state troops were on guard at the jail, and meanwhile the mob had increased by about 500 men from Greenville, a neighboring town. The situation was extremely critical. A hundred regulation army rifles projecting from windows, porches and the building presented a formidable proposition for the mob leaders. There were threats of explosives guarded.

While Saturday's crime of the negro Ruby was the chief cause of the mob's fury, the presence in the jail of two other negroes, against whom there have from time to time during the last two weeks been threats of violence, added to the excitement. These circumstances made it evident that the entrance into the jail meant a triple lynching.

At midnight the mob spirit was waning, the police having arrested several alleged leaders of the mob, which had a salutary effect.

MASQUERADES AS MAN.

Woman Says She Disguised Herself So As To Have Better Chance in World.

New York, Oct. 12.—Dressed in a dark suit and wearing a slouch hat, set rakishly on a thatch of black hair, showing gray about the temples, a woman, looking like the same Frank Woodhull, 50 years old and a native of Canada, walked up the broad entrance to the immigration station on Ellis Island. An hour later the passenger left the private room of one of the matrons in a state of agitation, short of the name of Frank Woodhull. The passenger was, in fact, Mary Johnson, who had adopted men's dress. She confessed that she had so disguised herself to have a better chance in the world and because of a moustache which nature had unfortunately bestowed on her.

Standing before the immigration matrons she told a pitiable story of her life, which, she declared, had been blameless.

"My life," she said, "has always been a struggle. I come of an English-Canadian family and have had most of my fight to make all alone. Thirty years ago, when I was 25, my

Laurier's work is seen in the care his administration has shown for the interests of labor; in the abolition of the sweating system; in the establishment of a Department of Labor; in the publication of the Labor Gazette; in the adoption of a fair wage scale for Government contracts; in the beneficial operation of the Lemieux Act; in the vigorous and successful handling of the serious problems presented by Oriental immigration, one of which took Mr. Lemieux to Japan, while another, the Indian, took Mr. King to London.—Montreal Herald.

HOW PREMIER MCBRIDE SERVES VICTORIA.

Premier McBride, we are told, has taken off his coat and is going to perform yeoman service on behalf of Mr. Borden and the Conservative candidates in British Columbia for the next two weeks. Our friend Mr. McBride was in shirt sleeves last week and delivered a characteristic speech at the Conservative smoker. If that utterance, chiefly noted for extravagance and recklessness of statement and the liberality with which, as published, it was punctuated with cheers and applause, may be taken as a sample of the goods to be delivered in the future, it would possibly be more tolerable for Mr. Borden and the cause if the Premier were told to put on his coat and remain mute until the campaign is over.

Mr. McBride, as one representative of Victoria, surely trends upon dangerous ground when he asserts that the Minister of Inland Revenue has been completely and callously indifferent to the interests of Victoria. The Premier of British Columbia was elected as a provincial representative of this city on a distinct pledge that if honored with the confidence of the people he would give proof of his interest in the welfare of the constituency. There are on every hand evidences of the efforts of the Minister of Inland Revenue to advance the interests of the people of Victoria. Can Mr. McBride point to a single thing he has ever done for the people of Victoria? If he can, will he be good enough to draw attention to some of the works he has accomplished? We cannot recall any—and we defy this wordy stalwart to do so either. Possibly Mr. McBride thinks he has redeemed all his pledges by surrendering the concession of free water from the municipality demanded by and conceded on demand by his dear friend and former Chief Commissioner of Lands and Works.

The truth is that Premier McBride and his government have taken advantage of every excuse or opportunity that presented itself to tear down the institutions which in every other province of the Dominion are maintained at the capital and to set them up elsewhere. He has set the law courts upon wheels, in the hope and belief that eventually they will find a permanent abiding-place—not in the city of Victoria.

He has shorn the capital of her acknowledged right to consideration as the educational centre of the province. On the subject of the site of the provincial university, for which legislative provision has been made, Mr. McBride has been as dumb as an oyster and as mysterious as the vastness of space, but certain of his ministers have been more frank and outspoken. They have loudly announced that the university will not be situated in Victoria.

Mr. Borden, the leader for whom our plausible Premier has taken off his coat and for whom he is going to fight valiantly in his usual tricky and deceitful style, has given a pledge that if called upon to form a government for Canada he will call George Cowan of Vancouver into his council of state. There is little likelihood of Mr. Borden being called upon to form a government, and just as little probability of Mr. Cowan being a member of that government. But that does not affect Mr. McBride's position. He is not content with what he has already done to rob and humiliate Victoria. He is fighting for the election of George Cowan and for the triumph of R. L. Borden, and therefore that Vancouver, not Victoria, shall have the honor of sending a representative to Ottawa to sit in the Dominion Cabinet. That is another example of the deep love Premier McBride entertains for the city he represents; another example of his ardent desire to promote the interests of Victoria; another instance of the peculiar manner in which he dissembles his love.

However, there is some comfort to be drawn from the reflection that there is just as much probability of George Cowan being a member of the Dominion government as there is of the protegee of Premier McBride being elected to represent the city of Victoria in the next Dominion Parliament. Let the Premier wage his contemptible, secret, but transparent, war

fare against the city he represents while he has the opportunity. Probably he may temporarily have blinded the eyes of a few Conservatives by his flamboyant, feeble phrases; but a day will come when even they will perceive the true intent of his pretended friendship.

THE SONGHEES RESERVATION.

With his characteristic constipation of ideas and diarrhoea of words, the editor of the Colonist dishes up to his readers a couple of columns about the rights and wrongs of Victoria in the Songhees reservation. True, our contemporary's lean pabulum has all been on the table before in various shapes, and now it comes in the last possible disguise—hash. But it is well peppered and spiced and accompanied by the only original boarding house smile, and the old lady down the street with a curtsy and a flourish says, "Taste that now."

It has been shown that Mr. Templeman has made every reasonable effort to come to an agreement with the Indians, that he has actively and persistently pressed, and is now pressing, them for a reply to the government's generous offer. It has also been shown that Mr. Helmcken has, as a friend of the Indians and a good citizen of Victoria, done what he could to bring about a settlement agreeable to all parties. With a discriminating spirit of fairness and justice Mr. Helmcken wrote to Mr. Templeman urging delay in the following words: "On the one hand I feel quite confident that the Indians will not be averse to accepting your fresh terms; on the other hand, if you force them to assemble at a meeting called by the agent and present your ultimatum it will probably turn out that they will give you no answer at all, and thus the beneficial results of your patience will become lost and fruitless. No one will dare to doubt that Mr. Helmcken acted in good faith when he advised a little more patient delay. Are we wrong when we say that if Mr. Templeman had at that time tried to rush a forfeiture act through the House he would have been met, and met deservedly, with the scorn and obloquy of the whole of Canada? We have not yet descended to the American idea that the only good Indian is a dead one. We believe the legal and moral rights of Indians are as sacred as those of white men. Might is not always right. Canada has never yet compelled an Indian to leave his reserve, and it never will save in case of absolute necessity, and after all peaceful methods have been exhausted. It must be admitted—may we assert that the necessity is as hand, and legislation cannot be much longer delayed. The question has now become acute, and if the Indians continue to trifle with every proposition made to them, the government will be quite justified in seeking for the necessary legislation."

Mr. Templeman has no reason to be ashamed, he has reason to be proud, of the amicable and considerate course which he has pursued towards the Songhees. He has looked upon them as fellow-beings whose rights, opinions, feelings, whose prejudices even, should be respected. The supercilious contempt of the Colonist for the Indian who dares to bring his slovenly, unhandsome person "betwixt the wind and his nobility," has no part in our member's composition. He has, however, it must be confessed, very little respect for one who can condone every wrong in his friends, and condemn, without consideration, everything that his political opponents do. The Colonist's cussing editor is always uttering his anathema maramatha: You'll be damned if you do; You'll be damned if you don't; You'll be damned if you will; You'll be damned if you won't.

FAVORS INCREASED TAXATION.
Premier McBride says the people of British Columbia are the most highly taxed of all Canadians. The reference we presume, was to federal, although it might with truth have been to provincial taxation also. The McBride government has added considerably to the taxation of the people of British Columbia; but it has been careful not to deal too hardly with the interests which are preying upon the resources of the province—admitted to be the riches of all the provinces of the Dominion.

But, if it be true that the people of British Columbia are highly taxed, does the Premier of British Columbia, in his report of the Conservative party of that Dominion, advocate a reduction of that taxation? Has he any scheme for lightening the burdens against which he inveighs? The present government has reduced the rate of taxation, and the measure of that reduction is the measure of relief that has been afforded the taxpayers of the province.

Mr. McBride in taking the stump against Liberal candidates to all intents and purposes throws his influence, whatever it may be, in favor of an increase of taxation. Because, while little has been said upon the subject in the West for obvious reasons, the Conservative party led by Mr. Borden is committed to a policy of increased taxation. It stands for "adequate protection," which means a tariff as high as the tariff of so-called competing nations, a tariff of proportions equal to that of the United States, a tariff, as high as Britain's galloves, as one ardent protectionist explained a few months ago. It stands for the abolition

of the British preference, because that preference is said to be inimical to the welfare of certain Canadian manufacturing industries. That measure in itself provided substantial relief to the taxpayers of British Columbia as every merchant who stands between the market and the consumer knows. Let the electors of British Columbia not be deceived: If the Conservative party were returned to power the consumers of this province would be called upon to contribute from one-third to one-half more to the exchequer at Ottawa or to the pockets of Eastern manufacturers.

That is the Conservative policy. It is not discussed in the West, because the party managers realize that the people of the West, and particularly the practical, sensible, far-seeing farmers of the prairie regions, are inflexibly opposed to it.

The policy of the Liberal party, in a word, tends to a reduction of taxation. The policy of the Conservative party is "adequate protection," which means increased taxation. The people can no longer be humbugged by the fallacy that duties are paid by the exporter. If taxation is too high in British Columbia, as Premier McBride hinted without saying explicitly, what would the conditions be under "adequate protection," supplemented by the abolition of the British preference—a measure which has done more than anything else fiscal to reduce the contributions of British Columbia to the federal treasury?

The Laurier government had a majority of twenty-three in the late Parliament outside of the membership from the province of Quebec. That in itself proves how absolutely hopeless is the position of the Conservative party. It proves also how futile is the task of attempting to make the public believe that Hon. Mr. Brodeur ever made the statement that if the Conservatives carried a specified number of seats in the province of Quebec the government would be defeated. The Toronto News, of course, like the Victoria Colonist, will not accept the denial of the Minister of Marine and Fisheries. Apostates are proverbially venomous in their treatment of former allies. The News found that as an independent newspaper it could not do business. It lost hundreds of thousands of dollars in the venture, principally because its editor was a "discredited figure" in Canadian political life. Now, in the hope of retrieving its fortunes, the Toronto News has thrown off its cloak of non-partisanship and become Conservative—rabidly Tory.

The editor hopes to achieve both revenge and justification in the defeat of the Laurier government. There is just one other newspaper man in the country who will share Mr. Willison's far from viable feelings on the evening of October 24th.

The Regina Leader bases the conclusions which follow on reliable advice received from all sections of Canada: Summing up the situation as set forth in these dispatches, but one conclusion can be arrived at, viz: that from one end of the Dominion to the other the ministry of Sir Wilfrid Laurier will be sustained and that Canada's "Grand Old Man" will be sent back to finish his work with a majority of certainly not less than 45 and with every indication of a majority largely in excess of that figure. That this should be so is hardly to be wondered at, for the country really has no choice. On the one hand Sir Wilfrid, the veteran statesman, with a definite constructive policy, with a spotless record of twelve years filled with achievements which have made Canada a nation among the nations; and on the other hand is Mr. Borden, honest enough it is true, but a mere puppet in the hands of the most unscrupulous statesman Canadian history has record of, with a policy that resembles nothing so much as a political crazy quilt and a following at sixes and sevens upon the chief questions of the day. Again we say the electors really have no choice, in the matter. It is simply a question of Laurier or chaos.

BOWSER GETS HIS.
(Westworth Light.)
"Every man who has any desire to be fair, who heard Bowser in the town hall, cannot but admit that he is a guffaw, a blundering braggadocio, a man discarded in his own province, a fugitive from the justice of public opinion in British Columbia."

A BRIGHT OUTLOOK.
(Halifax Chronicle.)
When young men of the stamp of Mackenzie King are willing to throw up handsome salaries to fight under the banner of Laurier there need be no apprehension that the campaign of falsehood and slander will succeed.

A KINGLY MOTTO.
(Kingston Whig.)
Mackenzie King has the correct idea of a campaign. His motto is, "No peasant politics."

BORDEN AND FOSTER.

His first lieutenant, Foster, he has shunned as a pestilence, though he was tried to placate him with honeyed words.

CAN'T BE POSSIBLE.

Mr. George Eulas Foster speaks well of Mr. William Lyon Mackenzie King. What's that? Say it again, and say it slower. Mr. Foster speaking well of anybody! We'd as soon believe it of the Toronto Telegram.

Sir Wilfrid in Quebec.

Quebec, Oct. 12.—I have watched the Liberal banner above the ancient capital of Quebec, and there I will keep it waving. Thirty-one years have passed since these prophetic words fell from the lips of Sir Wilfrid Laurier in the memorable campaign which followed his appointment in 1877 as Minister of Inland Revenue in the Mackenzie cabinet. The eighteen years following 1877 were dark ones for the Liberal party in the country at large, but Quebec has never wavered in its support of Sir Wilfrid Laurier, and the demonstration in his honor last week in the streets of the ancient capital, and in the large skating rink in St. Roch's, surpassed in numbers and in enthusiasm even those magnificent demonstrations that marked the Prime Minister's passage through Ontario earlier in the present campaign.

The audience of about 4,000, which listened to the inspiring addresses of Sir Wilfrid Laurier, of Sir Lomer Gouin, of Hon. Rodolphe Lemieux, was not as large as some of those in Ontario, but this was only because the building would hold only a fraction of those who flocked for admission. The streets were crowded with cheering multitudes from the time the procession left the Chateau Frontenac until it reached St. Roch's, and perhaps it is not too much to say that 40,000 persons, in all, half the population of Quebec, turned out for the occasion. Such a meeting and such a demonstration is an inspiration to the Liberal workers of the whole Quebec district.

The day has passed when Liberals in this province are denounced from the pulpits as infidel, and denied the sacraments by the clergy. The Catholic and Conservative society of Canada, BUT all honor to the stout-hearted French-Canadian Liberals by whom this work was accomplished. Sir Wilfrid Laurier was among his own people, surrounded by the veterans of a hard-fought battle, and by thousands of the younger members of the party, no less devoted than their elders to the cause of Liberal principles.

The presentation of an address to Sir Wilfrid Laurier, bearing the names and portraits of thirty veteran Rouges who worked for him in the election of 1877, was followed by another address in which he was formally tendered the nomination for Quebec East, in the present contest. This letter bore upwards of 3,500 signatures.

If anything were needed to stir up the Liberals of Quebec district to the duties of the campaign, the inspiration has been provided by that great demonstration, and by the presence in their midst of the beloved leader of their party.

But as matters stand it looks in this part of the province like a walk-over for the government candidates almost all along the line.

EMILIO DE GOGORZA IS TO GIVE CONCERT

Victoria Musical Society Has Arranged for Baritone Singer.

On Saturday afternoon last the executive committee of the Victoria Musical Society met the representative of Emilio de Gogorza, the celebrated baritone, and arranged for that distinguished artist to sing in Victoria on October 27th. Mr. Gogorza is no stranger to Victoria. He sang here for the musical society just two years ago and gave the most wonderful example of what the human voice is capable of, ever heard in Victoria. Volumes of praise went up from the press and public and the committee of the society have received numerous requests to bring him back if possible.

Mr. Gogorza is also very well known to Victorians through the medium of the Victor gramophone records. The local agents for these records, state that his records, especially "Mother of Mine," are very much in demand. This will probably be Mr. Gogorza's last appearance on the concert stage. For many years the musical magnates of New York have been trying to induce him to forsake the concert field for that of opera and it is understood that their efforts have at last been successful.

Mr. Gogorza, besides being a great artist, is also a very wealthy man. He will not sing on two consecutive evenings and in this may probably be attributed the wonderful freshness and brilliancy of his voice. He holds a controlling interest in the Victor records concern, and every record issued by that company has to be heard and approved by him before being published.

This concert will be the opening event of the Victoria Musical Society's season but is not included in the subscription course of concerts. It is an additional concert arranged after the society's prospectus had been issued.

SALE ALMOST COMPLETED.

A short time ago the B. C. Permanent Loan & Savings Company placed an issue of \$100,000 of class "A" Permanent stock on the market. Over four-fifths of this issue has already been sold, and at the present rate of progress, the balance will soon be placed. This will complete the sale of the company's authorized permanent capital of one-half million dollars, and when completed, the paid-up permanent capital will be one-half million dollars. The directors are also going to transfer a large amount to reserve before the close of the year. The policy of the company is to maintain the reserve at 50 per cent of the permanent capital, thereby keeping the value of the stock at \$150 per share.

The Y. M. C. A. first aid to the injured class will commence next Wednesday night at the rooms when Dr. H. J. Wasson will deliver the first of a series of lectures to the members.

NEW MEAT MARKET GIVES AWAY PRIZES

Mrs. W. G. McAllister Wins Silver Service in Coupon Drawing.

Mrs. W. G. McAllister, of The Poplars, on Saturday night brought forward the coupon bearing the corresponding number to that drawn at the new meat market of the Vancouver-Prince Rupert Company, Limited, at their store on Douglas street, and won the handsome, chased set of table silver that had been offered by the new firm to the holder of the lucky coupon. The set comprised seventy-two pieces enclosed in a handsome case.

A large crowd of coupon holders assembled on Saturday night, the store being filled while thousands of others, unable to get in, took up positions in the street. The holders of coupons were all present to ascertain if the number drawn was that which corresponded to the figures on the ticket held by them. A little girl was called from among those present and requested to make the drawing and in view of the audience she drew ticket number 3811 whereupon Mrs. McAllister brought forward the coupon and was handed the valuable prize.

P. J. Russell, the managing director of the new company, confirms the report published in the Times several days ago, that it is the intention of his company to build more extensive premises in the city for the conducting of the firm's business, and for this purpose had now secured a lot on Johnson street near Government street, where a suitable building would shortly be erected. An example of the manner in which the firm does business is demonstrated in the new system of packing in parchment all goods sold. This preventing contact with foreign substances. The company has a place of business at Vancouver and one in New Westminster. The company will also establish a branch at Prince Rupert. Mr. Russell states that one of the features of his company is that its stockholders are for the most part, British Columbians. Among them are David H. Hays, a brother of C. M. Hays, president of the Grand Trunk Pacific railroad; T. Ellis, proprietor of the Triangle ranch, Nicola; Senator Bostock, C. A. Semlin, Joseph Gulchson and P. Donnelly. Many are engaged in stock raising in the province.

The first run the fire brigade have had this month was on Saturday afternoon when they were called to 907 Government street to a small roof fire. The fire was extinguished before any damage was done.

A meeting of the general committee of the Laymen's Missionary movement was held last evening in the Y. M. C. A. building at which J. L. Beckwith presided. A. J. Brace explained the objects for which the committee was appointed. Three sub-committees were chosen for the following purposes: To wait upon such city congregations as may manifest a desire to know more of the L. M. M. and its ends; as well as to send speakers wherever their services may be required; (2) to attend to publicity and advertising; and (3) to secure the most suitable literature which is adapted to L. M. M. purposes and to ensure its widest possible circulation among the friends of the movement in this city and vicinity. The general committee agreed to hold Wednesday evening weekly sessions.

VICTORIA WEST
NOW HEADS LISTBAYS AND GARRISON
WIN CLOSE GAMES

Large Crowd at Royal Park
Sees Finest Struggle of Season.

Clubs	Standing	Played	Won	Lost	Pts.
Victoria West	1	3	2	0	4
Esquimalt	2	3	2	1	3
Cedar Hill	3	2	1	1	2
Garrison	4	2	1	1	2
Bays	5	2	1	1	2
Regiment	6	2	0	2	0

Saturday's Results.
Victoria West, 2; Esquimalt, 1.
Bays, 1; Cedar Hill, 0.
Garrison, 1; Regiment, 0.

The above scores indicate that the times of the season have been three close and interesting games in the Victoria District Association league last Saturday was correct as the matches were like the scores in each case and were never won till the final whistle blew.

"At the Royal Athletic ground the first game played this season was a real test of the fact that the season has been three close and interesting games in the Victoria District Association league last Saturday was correct as the matches were like the scores in each case and were never won till the final whistle blew.

The comment of the game showed the E. A. A. team at least five pounds per man heavier than the sturdy lads from the west, but what they lacked in weight they made up in speed and towards the end of the second half they had the big men run off their feet.

The first half the winning team played down the hill and put up two goals while keeping their opponents from scoring. The pace they set was fast although their goals were lucky ones they still counted and gave the Victoria West boys heart against their heavy opponents. There were many who said the West boys could not stay the distance on the change with the E. A. A. men playing down the ground. These were saying for a surprise, however, for on the call of time the West boys had the big men well in hand.

The second half was responsible for the only score of the E. A. A. team, which was obtained by Connor as the result of a penalty kick, the second that had been allowed against Victoria West in the second half. The first, however, was kicked past the goal. The work of Bellamy, O'Neil, Prevost, in fact all the winning team, for none can be especially separated on the score was the class, that got to make winners. The play of the E. A. A. on the other hand showed that they were not quite in such good fettle but have the makings of a strong team which will provide a big game when the two teams meet in their next encounter at the Canteen ground on November 21st. Jasper, Clarkson, Conner, for Esquimalt, were three distinctive stars, but the team lacked a self-controlled goalkeeper and consequently lost the game. Up till November 21st there does not appear to be anything in sight that can beat either of these teams as they are now playing the game and their next meeting will undoubtedly draw hundreds of spectators to witness the contest.

At the conclusion of the game at Royal Athletic ground on Saturday there were several wagers offered and taken that Esquimalt will defeat the winners of Saturday's game when they meet next month.

Bays vs. Cedar Hill.
At Clarke's field, the Bays put up their first win when they registered one goal against the Cedar Hill men on Saturday afternoon and came back to town seeing at least second place on the score card at the end of the season. There is yet a long way to go and plenty of time for them to get into first place if they have the team to do it with.

J. Eden scored the only goal of the afternoon and the back line of the Bays prevented the Cedar Hill men from getting through.

Garrison vs. Fifth Regiment.
But a single score was registered in the Garrison match at Work Point and the Garrison scored their first win of the season on their second match. The score was made from a corner having been beautifully placed

VICTORIA WINS IN
FIRST RUGBY GAME

Team From H. M. S. Algerine
Shows No Class Against
Local Men.

At the Canteen ground on Saturday the Victoria Rugby team scored 33 points to nothing against the team selected from H. M. S. Algerine. The game was a one-sided affair throughout and the sailors showed they have not benefited by any practice they have indulged in prior to the match. The general opinion of the Victoria players who watched the game on Saturday was that the local men have with steady practice and a little strengthening in places a fair chance of winning the McKeehan cup this year.

The men, so far this season have not lined up in the training quarters as they should, complains their manager, and if the optimism of their supporters is to be continued they will have to give almost daily attention to that most essential part of the work.

VANCOUVER ATHLETES TO
HOLD GROUP CONTESTS

All-round Course of Gymnas-
tics Will Be Feature This
Winter.

One of the main features of the winter's exercise in the gymnasium of the Vancouver Athletic Club will be a series of all-around group gymnastics combined. These contests will be known as group games. The idea is to interest large groups of men in the all-round feature of the course of gymnastic training, as adopted by the Vancouver Athletic Club in working out its programme of physical training.

The days of the specialist in beneficial gymnastics are over. Instead of a few muscles trained all out of proportion to the rest of the body, giving a one-sided appearance to the physical man, the aim now is to promote health and strength, thereby acquiring a harmonious development. It is from this standpoint that the group games in the physical training course of the V. A. C. were inaugurated. These contests will cover a period of five months, coming on the alternate Monday nights, beginning October 13th. On each side of these nights there will be two athletic and two gymnastic exercises. The scoring will be done entirely by teams, groups of men being dealt with, and not individuals. Aside from this the records of each one participating in the games will be kept to determine the winners of the all-round championship. A schedule of the events for the various contests is as follows:

Monday, Oct. 13.—Twenty-yard dash, three broad jumps, side horse.
Monday, Nov. 2.—Running high jump, 15 foot rope climb, parallel bars.
Monday, Nov. 16.—Running high jump, 15 foot rope climb, parallel bars.
Monday, Nov. 23.—Standing broad jump, pole vault, mat work.
Monday, Dec. 1.—Standing high jump, running high jump, flying rings.
Monday, Jan. 4.—Backward broad jump, 20-yard dash (backward), side parallel bars.
Monday, Jan. 18.—Springboard high jump, standing high jump, long horse.
Monday, Feb. 1.—Eight-potato race, rings.
Monday, Feb. 15.—Quarter-mile potato race, horse and buck combined.
Monday, March 1.—Quarter-mile run, buck and jump standards combined.

SIMONSON WINS
DUKE OF YORK STAKES

London, Oct. 12.—The Duke of York handicap stakes, for two thousand pounds, was run on Saturday at Kempton park over the Jubilee course of a mile and a quarter, and resulted in a win for A. Stedals "Simonson," a five-year-old outsider, carrying six stone seven pounds, with Arthur James Lucas, three years old, a good second, and Capt. Kincaid Smith's Succor, five years old, third. Simonson, the winner, was 29 to 1 against; Lucas, second, was 33 to 1 against; Succor, third, was 100 to 1 against. Seventeen horses ran.

HOCKEY.
ENGLAND'S TEAM.

London, Oct. 12.—At a meeting of the English selection committee at Birmingham, the following side was chosen to represent England at hockey in the Olympic games, which begin at the stadium on Thursday, October 29th: H. L. Wood, Staffordshire, goal; H. S. Freeman, Middlesex, and S. C. Bailton, Northamptonshire, backs; J. V. Robinson, Oxford University, E. W. Page, Staffordshire, and A. H. Noble, Lancashire, half backs; P. M. Rees, Surrey, G. Logan, Surrey, S. H. Shovelier, Surrey, R. G. Fridmore, Warwickshire, and Eric Green, Middlesex, forwards. England has been drawn against France in the first round.

ATHLETICS.
TO REMAIN AMATEUR.

Toronto, Oct. 12.—Tom Flanagan, of the I. C. A. C., denied as utter foolishness the Boston story that Longboat had been matched to run a ten-mile race at New York. The Indian will positively remain an amateur, says Flanagan.

TO COACH HARVARD BOYS.

Boston, Mass., Oct. 12.—Alfred Hubbard, the holder of records at many distances and considered the greatest runner who ever donned a shoe, has been engaged as coach of the Harvard runners.

LONGBOAT IS VICTOR.

Toronto, Oct. 12.—Tom Longboat won the Marathon race yesterday. Time 3:51:25.

Owen Moran, the champion featherweight of England, Moran has been asked to state the terms under which he will fight at the local club, and it is probable the Milwaukee lad will get a chance with the clever Britisher. Watson proved that he has speed, aggressiveness, and a powerful wallop. The local pugilist experts say he would make a good showing against any featherweight in the world.

FAMOUS "ALL BLACK"
PLAYER GOES HOME

Gleason Will Return to Ireland
and Run for Imperial
House.

One of the passengers outward on the R. M. S. Marama, which sailed a few days ago for Australia, was J. C. Gleason, a member of the famous "All-Black" team which beat all sides Wales during their old country tour of three years ago.

Since his return to New Zealand after that memorable trip Mr. Gleason again visited Great Britain on October 4th, 1907, this time in the capacity of playing manager of the famous "All-Black" team, and is now returning to his native country after this latter tour.

It will be remembered that the first "All-Black" team was purely amateur, and the great success of that undertaking prompted the younger bloods to form an organization and revivify the old country as professionals, with the result that a tour of six months amid the Northern Union teams sufficed to enable the enterprising New Zealanders to pocket the handsome sum of 25,000, which will be divided amongst the players.

With the exception of four other members and Mr. Gleason, the team has long since returned home, whilst a few are actually back again in England travelling with the Australian Rugby team.

The tour on this occasion has been eminently successful, as the "All-Black" team won every test match except that played against Wales. As might be expected, Mr. Gleason is loud in his praises of the gallant little principality, "the only place," he says, "where they really play Rugby."

Four of the members of his team remained in England, namely, Smith, the champion hurdler of the world; McGregor, the flying Scotsman; W. Johnson and Mackrill, all of whom play for Oldham, a crack Northern Union team.

Mr. Gleason will not remain long in New Zealand, as he is an aspirant for parliamentary honors next year in the Imperial parliament, contesting an Irish seat in the interest of the Nationalists. His father is well known in New Zealand as the head of the Napier Brewery, one of the wealthiest concerns in the country.

There is a Reason
Why You Can't Feel Well

Most People Know the Cause of Much Ill-health, Yet Neglect to Administer a Cure.

Chronic constipation is prevalent with men and women of sedentary habits. Many are constantly "topping" themselves with drugs, only to find temporary relief. The constant use of physic is harmful not only to the stomach but to the whole system; there is an aftermath that is worse than the disease.

Dr. F. L. B. nature's remedy will correct this disorder speedily. Take two of these tiny, tasteless pellets each morning before breakfast and two again at night for two weeks, when you will find your stomach and bowels are working quite naturally.

Dr. F. L. B. are purely vegetable, put up only in aluminum boxes to fit the vest-pocket or cigarette case, and can be secured at all good drug stores at twenty-five cents a box.

JAMES J. JEFFRIES
SAVED HIS CASH

Developed Economical Streak
in Earlier Career on
Stage.

Appropos of the big fight that are pulled off from time to time in Jim Jeffries' arena near Los Angeles, many stories are told of how the retired champion saved the cash which enabled him to become a sporting magnate. One of these stories was told the other day by Henry J. McMahon, press representative of the Clansman company, who was formerly press agent for Jeffries. Mr. McMahon said:

"Jeff was a mighty good man to handle, that is, after he had been shown the various tricks of press work. At first he was inclined to kick over the traces. Both the 'Big Fellow' and his trainer, Billy Delaney, were right down angry over the so-called Jim Jeffries' manager. That was a frame-up between Sam Mott, the San Francisco man who managed the tour, and myself. We found a midge specimen of the yellow race, a 445 Japanese instructor in physical science or something, who consented to challenge to a combat of personal prowess. Neither blows, kicks nor strangleholds were to be barred. In fact, the dwarf expressed a willingness to attack Jeff with tooth and claw."

"I little thought when giving this out there was anything more in it than a passing paragraph. Instead the papers gave it columns and the cartoonists devoted pages to pictures of the opera bouffe combat. I think one reason Jeff disliked this story was because he always drew the color line. Jeffries told the New York newspapers that he would never consent to meet the negro fighter, Jack Johnson, and he never has."

"A marked characteristic of his earlier career was his economical streak. He was not mean in any way, but was accustomed to live in inexpensive hotels and was without luxurious tastes. As the result of this gunshoe policy, his adventures into the big town were unnoted. We changed all that, of course. Mott procured Jeff and his wife a fine suite in one of New York's leading hotels, and we invited all the newspaper boys to a Sunday reception. The champion did the honors in great shape. There was everything to eat, drink and smoke, and the supposedly stiff and unsocial Jeff cut loose and gave the boys as long and interesting an interview as they could possibly desire. Next night the New York World man donned the trunks to go on with Jeff in the four-round scrap at the end of the performance of 'Davy Crockett.' He was a Princeton graduate, well-known to the public recently as a magazine writer under his own name of William Inglis, and a very good amateur boxer. This 'Big Fellow' had the time of his life, playing with his friend Inglis. With his professional partners, he usually stove in a rib or two."

"In those days a favorite stunt of Jeff's was to stay up the entire night with the sporting editors in the paper shops and pass running comments on the rounds of the various fights as the ticker brought them in. He got to be an expert handler of the press. He was not a man to be taken as an actor, but his personal popularity went so far that they rarely roasted him for his theatrical efforts in the role of 'Davy Crockett.'"

"I've heard since then that Jeffries has become a bit of a plunger and in fact has gone in heavily against most of the big games. In my time, though, never did a man afford more strictly to business and waste less time, money and strength in foolishness than did my friend James J. Jeffries. As to the show business, I remember him as a model trouper and many a disgruntled, 'ticking' actor could take a lesson from the same Jeff."

SUN'S HEAT HATCHES CHICKENS.

Farm Hand Discovers Lively Brood in the Seed Box of Corn Planter.

Waterloo, Iowa, Oct. 12.—John Fales, living at Spring Branch, has a brood of seven chickens that were hatched without the aid of a hen or incubator. About three weeks ago he discovered that one of his hens had laid seven eggs in the seed box of his corn planter, which he had left on the south side of his barn.

To protect the eggs until later, when he expected to take them to the house, he closed the lid, but that was the last he thought of the eggs. One day last week J. H. Lewis, his hired man, while passing the planter, was attracted by a noise within the box. He raised the lid and found seven thriving young chickens.

During all the time the eggs were in the planter the sun had been beating down with abnormal heat by day, and there had been no rain or very cold nights to check the development of the embryo chicks.

HORSE DRIVEN OVER CLIFF.

Blind Horse Sacrificed to Get a Cinematograph Picture.

Paris, Oct. 12.—The French Society for the Prevention of Cruelty to Animals has taken action against a cinematograph company for an act of unprecedented brutality to a horse. In a series of pictures called "The Lover's Revenge," a carriage drawn by a horse was seen to rush over the edge of a cliff and be dashed to pieces. The pictures were not "fake" pictures. An old blind horse, harnessed to a carriage, was really driven over the edge of the cliffs near Boulogne to obtain them.

The character of the lumber that has been used in a building, a glance will show the big ugly knots, the split boards in one and the smooth unsplit surface of those in another. We sell the latter kind of lumber exclusively. Use our boards, shingles, laths, etc., and you'll more than make the cost when you come to sell the building. See the point?

PICKS UP WIRELESS

MESSAGE FROM HONOLULU

Estevan Hears Mid-Pacific Operator Sending to Farallones Islands.

For the first time since the introduction of wireless stations on the Canadian-Pacific coast, Estevan, early this morning, picked up a message which was being sent from Honolulu to the Farallones Islands. The latter lie just off San Francisco, and are some hundred miles nearer the Hawaiian Islands than the west coast of Vancouver Island. The system in vogue at Honolulu is the Morse and there is a powerful sending instrument, which can transmit over a long distance.

Intercommunication with the Hawaiian Islands is at present only in the experimental stage, and the fact that this is the first occasion upon which one of the local stations heard a message indicates that the time when this coast line will be in touch with mid-Pacific and thence with Japan and the East is well within reach.

WRECK SURVIVORS PICKED UP

Boston, Mass., Oct. 12.—Capt. Munroe and five of the crew of the British schooner Sirocco, who were supposed to have been lost when their vessel was wrecked off the Florida coast on May 20th, were landed here today by the fruit steamer Horatius.

MARINE NOTES

The Atlantic liner Empress of Ireland has broken every previous Canadian record. She left Liverpool on the night of Friday, October 2nd, and arrived at Quebec at 4 o'clock on Thursday, October 8th, making the run from port to port in a little less than six days. Mails on this boat were delivered in Winnipeg eight days after leaving England.

Steamer Norwood, of San Francisco, collided with steamer Asuncion of the same port on Thursday of last week in a dense fog. Both vessels were injured, the Norwood being cut below the water line and the Asuncion having some plates stove in. Both have been taken to port. The Norwood was kept afloat by her load of lumber.

British steamer Rumford arrived in the Royal Roads this morning and later went to Comox for bunker coal. She came here from Eureka, where she took on part of a cargo of lumber. When she leaves Union Bay she will go to Portland and complete her cargo.

Among the passengers to Australia by the Marana at the end of the week was Dr. R. M. Coulter, deputy postmaster-general, who has gone to Australia as a representative of the Canadian government in connection with the All-Red route.

United States revenue cutter Thetis is to remain in Alaskan waters during the winter. The cutter will winter at Sitka, but the remainder of the patrol fleet will return to Puget Sound and San Francisco for the winter months.

The Canadian-New Zealand liner Den of Ruthven, now loading lumber at Chemainus, is expected to leave this port on Friday next for New Zealand via Suva. She will take the mails and some general cargo.

Steamer Princess Anna arrived in port this morning from the North and is now unloading her cargo of salmon at the outer wharf. She brought down 2220 cases, all of the Skeena.

Steamer Governor is due in port to-night from San Francisco. She is bringing 100 tons of mixed freight for this port.

The J. L. Carter is carrying nitre from the outer harbor to the powder works at Telegraph Bay.

Steamer Leech left the Dominion government dock this morning, bound for the West Coast.

Steamer Otter is carrying cement from the works at Sanich Inlet to the outer harbor.

Steamer President leaves for San Francisco to-morrow with a full passenger list.

Liverpool, Oct. 12.—Steamer Lake Manitoba passed Inishmuck at 1 a.m. today.

AWAITS FINAL ORDERS

Barque Belfast Will Not Sail Until November 15th.

The Chilean barque Belfast, which is under charter to McNear & Co., and is now loading lumber at the Hastings mill, Vancouver, is to remain in the Royal Roads and loading until November 15th. She will then proceed to some port in Chile, but which one is not yet known. If the cargo is sold before leaving here she will proceed direct to the port where the lumber is to be delivered.

OFFER FOR GALENA

Columbia River Shipping Company Makes Offer for Wrecked Barque.

The Williamette and Columbia River Shipping Company has made an offer for the wreck of the British barque Galena as it lies on the beach at Clatsop spit. The amount of money offered for the craft or terms are not made public. It is understood that the firm offering to purchase the wreck will endeavor to float her and convert the hull into a coal barge. The Galena, a four-masted barque of 2,119 net tons, was in command of Capt. J. J. Howell, went ashore on Clatsop spit on the morning of Nov. 13, 1906.

British ship Arranmore, bound for the Royal Roads in ballast, has been out from Guaymas nineteen days. She will await orders here.

LUMBER TRADE SHOWS

SIGNS OF REVIVAL

Steamer Rumford to Carry Fir From Portland to Antipodes.

Portland, Oct. 12.—Lumber exporters have again begun to engage tonnage after enjoying a short season of inactivity. J. J. Moore & Co., chartering the British steamer Rumford on Saturday to transport a cargo of fir from here to Melbourne, Australia. The steamer is at Eureka, where she will take on a small shipment of redwood before clearing for the Columbia river. Her cargo will be received at Toke Point and will measure about 2,500,000 feet. She is of 1930 tons net register. The Rumford was at Portland less than a year ago and took a cargo of lumber for the Antipodes. Owing to her size, she is one of the most profitable trampers engaged in roaming about the Pacific. Of light draft, she can enter the harbor of any of the Oriental ports without lightening. She is also of good speed and inexpensive to operate as compared with many of the larger carriers.

There is every indication that the off-shore lumber trade will soon be as brisk as it was preceding the financial flurry of a year ago, when from 19,000 to 20,000,000 feet were shipped from here every month. Already the trade with the Orient has shown a decided improvement. In the last few weeks several American schooners have been chartered to transport fir to China and Japan. Two or three of them are completing cargoes in the river for Oriental ports, and four other similar droghers are headed in this direction to load for the same destinations.

The coastwise lumber trade is also picking up materially. Three months ago half the coasters were tied up in Oakland creek and at other points between Southern California and Puget Sound. Now there are not more than a dozen steam schooners and other coast lumber-carriers out of regular service. And it is said it will not be long until they will be plying up and down the coast and maintaining regular schedules the same as formerly. The demand for railroad ties in the southwestern part of the United States is affording employment to a number of the steamers.

DISPUTE CONCERNING

PAY FOR GARDENING

Case is Being Tried in the County Court To-day.

Two years ago William Norman was employed by John Arbuthnot to lay out the grounds at his residence, "Robboda," Rockland, avenue, and to plant and maintain regular schedules for \$132.20, which he claims is the balance due him on a total bill of \$393.20. Mr. Arbuthnot has paid \$100 into court as being a fair tender for the balance due.

W. C. Moyses is appearing for Mr. Norman and A. E. McPhillips, K. C., for Mr. Arbuthnot. The morning was occupied with the evidence of the plaintiff, who told of his engagement and the work done by him. He supplied a quantity of flowers and plants for the grounds and put in 150 roses, 150 carnations, and others. The prices charged, he said, were little above wholesale and were very fair and reasonable.

Yesterday advantage was taken of the fact that a number of those in attendance at the meeting of the general missionary committee of the Methodist church in Vancouver were in the city to have them preach in the local churches. Rev. Dr. Briggs, the book steward, occupied the pulpit of the Metropolitan church in the morning, while Rev. Dr. Darwin, superintendent of missions in Saskatchewan, preached in the evening, both giving missionary sermons. In the Centennial church Rev. Dr. Shorey and Rev. James Allen were the preachers. Rev. Mr. Darwin was at the James Bay church in the morning. Rev. James Allen and Rev. Dr. Shorey were in the Victoria West church in the evening.

By-laws That Will Be Brought Up at To-night's Sitting.

The building by-law amendments will be considered by the city council to-night and it is expected that they will be put through their final stages. These are designed to prevent the establishment in residential districts of certain lines of business which might be considered likely to depreciate real estate values in their neighborhood. There are several other by-laws to come up this evening authorizing local improvements which have been decided upon.

MISS MURCUTT IS THANKED FOR WORK

Interesting Series of Lectures Given in Emmanuel Baptist Church.

The five lectures delivered by Miss Ada Murcutt in Emmanuel Baptist church last week were well attended by appreciative audiences. The subjects were "Striking as well as the main purpose being to advance the local option movement. The church was crowded the last three nights and the people listened with great attention to the descriptive accounts of home and foreign scenes shown on canvas by a series of well painted slides. Mr. Maynard, operating his excellent lantern. The fame of the lecturer is well known, and it need not be said she did justice to all her subjects. At the last meeting the following resolution was proposed by Dr. Ernest Hall and seconded by Russell Westcott: "Resolved, first, that in the opinion of this meeting the time has come for an aggressive movement in favor of local option, and second, that we pledge ourselves to do all we can to accomplish the same by aiding the work of the local option committee of our city in obtaining a local option law and putting the same into operation."

This was carried by a standing vote. Another resolution was proposed by Frank Andrews, M.A., and seconded by John Clement and was as follows: "This meeting desires to express to Miss Ada L. A. Murcutt its gratitude and appreciation of the series of lectures delivered in Emmanuel church, Victoria, B. C., October 4th to 9th, 1908, and beg to assure her the pleasure it has been to have her in our city to aid us in the work of moral reform. The lectures have, indeed, been a great blessing to our work, and encouraged us in this good work."

"We heartily thank Miss Murcutt for her timely help and pray that God's blessing may be given her in the future as in the past." A standing vote carried this resolution.

THE DAY STAR

A Bed-Time Story for the Babies by Marguerite Evans.

A certain dandelion knew that she was a star because one night when all the other dandelions were fast asleep she stayed awake and away up in the sky were ever so many other dandelions. Our little dandelion wondered why she had never noticed them before, but when she waked up in the morning there wasn't one to be seen. She told the other dandelions about it, but they only laughed at her and said she must have been dreaming. She shook her head, however, and said she hadn't been dreaming at all, she was wide awake, and that if they would stay awake the next night they would see for themselves.

So they did, ever so many of them, but the sky overhead was as black as black, that night, and not a sign of a dandelion did they see, so they laughed at our little friend more than ever, and said she had been telling them a fairy tale. "That very day a little white star skipping along the path beside her mamma, and when she saw so many dandelions she said, 'Oh, mamma, look! look! see the stars have dropped down out of the sky!'"

Her mamma smiled and said they were God's stars that He sent to brighten the earth in day time, just as the other stars brightened the sky at night. Then a breeze began to blow and all the dandelions nodded their heads at each other, and the little girl said they were twinkling just like the stars did at night, and after that she always called them the day stars instead of dandelions.

When our little dandelion wakened up next morning and looked at herself in the mirror made by the sun shining on the dew which covered the green leaves at her feet, she thought herself looking very dull and faded.

"If I am a star I must shine," she thought, and tried her very best; but the sun shone on her and made her so hot and tired that she had to droop her head. All day she felt her bright color growing duller and grayer, and when night came she was so discouraged that she didn't try to stay awake. Some time through the night a fairy kissed her on the forehead, and waved her golden wand over her three times, and said, "To-morrow you must get ready to come with me for your work on earth is nearly done."

The poor little dandelion was very much frightened at first, and she didn't sleep any more, but when she remembered how gently the fairy had kissed her, she thought it must be all right and she would wait and see.

Then she felt herself growing lighter and lighter, and when she looked in her mirror in the morning she did not know herself, for she seemed to be a big round ball of stars which the sun turned into all the colors of the rainbow.

Soon a pretty young lady in a pink dress came along with her hat hanging by its string over her arm. There was a gentleman walking with her and he asked her something which the dandelion didn't hear. The young lady laughed and said, "I'll let the dandelion tell you," and she stooped down on the grass beside our little friend who wondered what in the world was going to happen, you may be sure. The gentleman stooped too, and the lady said: "Once, I love you a little; twice, a great deal; three, not at all."

She blew once, ever so softly, on the dandelion, and only a few stars flew away, then she blew hard, and every star flew off and floated away up, and up, and up, past the clouds and the moon, right into the heart of the young lady, and that night when the little girl looked up at the sky, she said: "Oh, mamma, what an awful lot of stars there are to-night, I'm most sure some of the day stars must be up there too."

Warships require 1,000 to 1,500 feet clear space to swing round in tidal harbors.

Over the Back Fence

Mrs. Dunty leaned her arms on the fence despondently.

"No, I didn't get the prize. I never do get anything, and I've more meat in the house than I'll use in a month. Ralph is always telling me I'm a fool, and I begin to think so myself. I just don't know what to do. I went down on Thursday and got a leg of mutton, a lovely leg it was, too, for a dollar. Of course I got a coupon, and when I looked at that lovely silver-ware, just the very stuff I've been wanting for dear knows. I thought I'd buy a pound of steak, for Ralph's breakfast; so I got another coupon; then I saw a nice shank for ten cents, and I remembered that Ralph was awfully fond of soup, so I bought that too; and I figured those parcels home, and thought my arms were nearly broken, and I was so tired that I didn't think of the time I would have when I got that silver-ware. I'm expecting some of Ralph's friends here next week, you know, and I thought I'd be able to throw on an end of style."

"Well, would you believe me, Ralph came home at noon with another leg of mutton and a soup joint. He was so proud of himself that I didn't say a word, for there's no use telling a man everything you do, so I just never let on I'd bought a pound, for I knew I could use all the meat I had on hand. Well, there were some bargains in the ribbons on Friday and I went down there, and while I was there I thought I'd just take another look at the silver-ware. I was so sure I was going to get it, I thought I'd just have one more try for fear I really hadn't won the right number, so I bought some mutton chop. Then I saw a nice side of bacon, and I thought 'Well, that will keep till Xmas—if I don't need it before,' so I bought five pounds, and then ran for my life, for I had no money left, and my word! I just wanted to buy every bit of meat in the shop."

"Well, when I got home, I began to wonder what I was going to do with so much meat when I came Ralph with another shank, and four more coupons. My word, I thought I'd take a bit, but I didn't say anything. And in my heart I was rather glad, you know, for no matter how sure you are of a thing you can always be a little surer. Well, on Saturday night, down we went, and such a jam. I crowded in as close as I could so I'd be right there to present my coupon when the winning number was called. Why, my heart went thump, thump when the man was shaking up the box, and when the number was shouted out I really couldn't hear it at first. I was so excited. As soon as I found it wasn't any of the numbers I had, I felt so sick I nearly tumbled over. I thought of the pile and pile of meat I had at home. Then they kept shouting for the winner to come forward, but he didn't, and there was a second draw, and my heart began to thump again, but it was no use. I was left just as I always am, for some people never do get anything so matter how hard they try."

"THE HONEYMOONERS" ARRIVE TO-NIGHT

Good Comic Opera Promised at Victoria—"The Rivals" on Wednesday.

If Geo. M. Cohan had never written anything else but "The Honeymooners," he would be famous and a national favorite, for the piece combines all the Cohan excellencies and is quite irresistible. Direct from its brilliant summer success at the New Amsterdam theatre, New York, "The Honeymooners" comes to the Victoria theatre to-night.

The fact that the Cohan song show ran all last summer in New York at a \$2 scale of prices is evidence of its intrinsic worth. The action of "The Honeymooners" takes place in the town of "Beverly, Vermont." The author runs the entire gamut of small town comedy. There is an exciting plot, a pretty love story, in fact several of them; a rousing political campaign and altogether three hours of music and excitement. The piece is crowded with action and with melody. No less than twenty musical numbers occur in the three acts and among them are such Cohan hits as "Kid Days," "I'll Be There in the Public Square," "Make a Lot of Noise," "I'm a Popular Man," "If a One Night Stand," and "If I'm a Goin' to Die I'm Goin' to Have Some Fun." The music is simply irresistible and it is aided and abetted by two score of the daintiest chorists. The serious complications running through the plot heighten in interest to the very

Scene in "The Honeymooners" at Victoria Theater To-night.

FACTS FOR SICK WOMEN

Now-a-days, as theatrical managers are looking high and low for sensational dramatic material—when the book of the day is quickly sequestered and pasted into a play, and the latest tragic police news is manufactured into a melodrama, Joseph and William W. Jefferson continue on their popular and successful way with "The Rivals," in which the human heart is deliciously involved and laughs are the jolly companions that lead the audience from scene to scene to the very last act.

Locky theatregoers will have an opportunity to witness the acting of these histrionic artists. The comedy is mounted in elegant fashion and the supporting company will be one of the best that has ever visited this city. This classical offering comes to the Victoria theatre on Wednesday night.

"The Man of the Hour."

At the Victoria theatre next Monday, October 12th, George Broadhurst's interesting drama of love and politics, "The Man of the Hour," will again be seen. The story of the play is told in a straightforward manner, with plenty of comedy interspersed, to relieve any tensity in the dramatic action. There are four acts in the play, each being an interior, and the cast is reported to be of uniform excellence, most of whom appeared in the production last year, which includes William Lamp, Louis Hendricks, Neil Marsh, Felix Haney, Arthur S. Hull, Murdoch J. MacQuarrie, Everett Butterfield, William Lloyd, Ruby Bridges, Evelyn Moore and Ethel Brandon.

No other medicine has been so successful in relieving the suffering of women of received so many genuine testimonials as has Lydia E. Pinkham's Vegetable Compound. In every community you will find women who have been restored to health by Lydia E. Pinkham's Vegetable Compound. Almost every one you meet has either been benefited by it, or has friends who have. In the Pinkham Laboratory at Lynn, Mass., any woman any day may see the files containing over one million one hundred thousand letters from women seeking health, and here are the letters in which they openly state over their own signatures that they were cured by Lydia E. Pinkham's Vegetable Compound. Lydia E. Pinkham's Vegetable Compound has saved many women from surgical operations. Lydia E. Pinkham's Vegetable Compound is made from roots and herbs, without drugs, and is wholesome and harmless. The reason why Lydia E. Pinkham's Vegetable Compound is so successful is because it contains ingredients which act directly upon the feminine organism, restoring it to a healthy normal condition. Women who are suffering from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

GRANTS MADE BY

MISSIONS BOARD

Appropriations for Japanese
and Church Work in Prov-
ince Total \$7,778.

Vancouver, Oct. 12.—The Methodist
General Board of Missions was on
Saturday presented with addresses of
appreciative welcome by the officers
and members of the Japanese and Chi-
nese missions on the coast. These con-
tained encouraging statements of the
progress of the work, and asked for the
continued prayers and sympathy of
the members of the board.

The following additional grants were
made, viz.: To the Scandinavian work
of B. C., \$550; to the Galician Mission
Pakan, \$1,300; to the All People's Mis-
sion, Winnipeg, \$3,500; to the French
work (evangelical), \$4,777; the
French work (educational), \$4,002.50.
The Methodist college project in
West China the board authorized that
\$50,000 be set apart for this purpose,
and that the institution be known as
"The Hart Memorial College," thus
perpetuating the memory of the late
Virgil C. Hart, D. D., founder of the
West China mission, and of the late
Jahros Hart, who was a warm friend of
the mission, and a generous benefactor
of the funds of the Missionary Society.

The appeal for workers sent out by
the council of missionaries in West
China was received with enthusiasm.
As funds and men allow the board as-
sured the council this work would be
pushed forward.
The total appropriations for the West
China work were \$61,385.
Touching the work in Japan it was
referred that in view of the changed
conditions in Japan—consequent upon
this board regards it as imperative
that its representatives there should
become proficient in the lan-
guage so as to be able to converse freely
with the people and to preach effec-
tively. It was therefore recommended
that in the future if additional mis-
sionaries are sent great care should be
taken to select men of undoubted lin-
guistic ability. That on their arrival in
Japan they be allowed at least two
full years in Tokyo under the best
private instructor for study, and that
they be required to pass satisfactory
yearly examinations on a course of
study approved by the board, or the
executive. Any advance in salary also
may depend on satisfactory progress
in acquiring the language, and in case
it should appear that any persons are
unable to attain efficiency in the use
of the language the board may at its
discretion recall them.

In regard to the needs at Fernie it
was recommended that Rev. Dr. White,
superintendent of missions in British
Columbia, be requested to prepare a
statement of the situation.
In response to the communication
from Rev. Dr. E. D. McLaren, of the
Presbyterian church, asking for co-
operation in home mission work, it was
recommended that Dr. McLaren be
communicated with through the officers
of the council, they setting forth the
policy of the Methodist church, which
leaves the matter of appointing com-
mittees of co-operation to the annual
conferences, which conferences have in
most cases already appointed such
committees.

Concerning Pagan hospital, it was
recommended that when a suitable as-
sistant for Dr. Lawford is found, the
executive be asked to make the neces-
sary grant. Concerning the Italian mis-
sion at Toronto it was recommended
that the sum of \$1,000 be appropriated
and that the further needs of the work
be referred to the executive with power.
Touching the Italian mission in Mon-
treal, it was decided that \$500 be placed
in the hands of the executive with
power to make such contribution for
the work as may be found necessary.

The following were named as a com-
mission to look into the work among
European foreigners in Canada:
Messrs. J. H. Carson, Montreal; S. R.
Parsons, H. H. Pudger and Alexander
Mills, Toronto; J. H. Ashdown,
Winnipeg; and Revs. Dr. Allen, Dr.
Woodworth and Dr. Shorey.
Appropriations were made for the
Japanese work in British Columbia,
amounting to \$2,808.29; for the Chinese
work in British Columbia a grant of
\$4,570 was made. The total appropriation
for the Indian work amounted to
\$1,094.26.

The board expressed its satisfaction
with a newly announced policy of the
Dominion government, in offering to
give a per capita grant of \$100 for
each pupil in residential schools east
of the Great Lakes, and \$150 in all
schools west of the Great Lakes, with
\$500 for day-school teachers.

The report of the secretary of the
Young People's Forward Movement,
Rev. Dr. Stephenson, contained many
encouraging items. Under this move-
ment 15 missionaries have been assign-
ed for special support, and an applica-
tion for ten more are on file, while the
sum of \$22,142 is on deposit with the
Missionary Society from the Epworth
Leagues, awaiting the assignment of
missionaries or other special objects.

During the past year literature has
been published, costing in all \$6,701.19.
The total sales of literature for the
year amounted to \$5,481.25, while there
was a total of literature given away
for educational purposes of \$1,077.56.

During the summer of 1907, twenty-
two summer schools for the study of
Bible and missions were held, and in
1908 fourteen of such schools. These all
proved exceedingly helpful.
Rev. J. F. Westman and Rev. A. M.
Sanford appeared before the board in
behalf of the Epworth Leagues of British
Columbia, asking that the leagues
of Vancouver and New Westminster
districts be allowed the privilege of ap-
plying the money raised by them for
the Epworth Movement to the exten-
sion of the work of the district. The
expenditure of such money to be sub-
ject to the approval of the superintendent.

ent of missions of British Columbia.
This request was granted by the
board.

ANOTHER BOAT ON FRASER.
Strathcona Placed on Run Between
Chilliwack and Vancouver.

Chilliwack, Oct. 12.—The carrying
trade on the river between this point
and the coast cities has increased to
such an extent that it has been neces-
sary to place upon the Fraser the third
boat.
Messrs. Ironsides, Ramsie & Campbell
have placed the steamer Strathcona, a
comparatively new stern wheeler with
a speed of from 12 to 18 miles per hour,
upon the run. The new steamer has
arranged its schedule of sailings upon
days that the other boats are off and
runs from Chilliwack to Vancouver in-
stead of only to New Westminster.
The Strathcona has a permit and is
fitted with a capacity for 500 passengers
upon fresh water.

DRUNKENNESS AMONG
INDIANS INCREASESGrand Jury Would Deal Severe-
ly With Those Who Supply
Liquor.

Kamloops, Oct. 12.—In the present-
ment made by the grand jury at the
assizes here reference was made to the
practice of supplying liquor to Indians
as follows:

"In view of the very grave crimes,
including that of murder, frequently
perpetrated by Indians when under the
influence of liquor (who are otherwise
generally peaceable citizens) and in
view of the inadequacy of the statute
law to effectively mete out punish-
ment to those who are morally, if not
legally, responsible for such crimes,
viz., the persons who habitually traffic
in the illicit supply of liquor to In-
dians, a form of crime which shows no
signs of diminution in districts con-
tiguous to Indian reserves in this pro-
vince, and in view of the marked in-
crease of drunkenness among the In-
dians the grand jury respectfully wish
to place on record its sincere desire
that the statute law should be amend-
ed so as to increase the term of pun-
ishment to a maximum term of two
years with hard labour."

In reply Mr. Justice Martin touched
upon that portion dealing with the li-
quor traffic with Indians and promised
not only to bring the matter before the
attorney-general for the province, but
to see that a copy of the recommenda-
tion of the grand jury was sent to the
minister of justice at Ottawa and also
to the superintendent of the Indian de-
partment.

RETURNS TO FAR NORTH.

Bishop Rowe Will Travel 4,000 Miles
From Sitka to Mission Field.

Vancouver, Oct. 12.—Bishop P. T.
Rowe, of Alaska, who is on his way
back to his work in the North, has left
for Seattle, where he will take steamer
for Sitka. Bishop Rowe went to Alaska
twelve years ago, and was at Dawson
two years before any shacks were built
there. He travelled 5,000 miles between
November, 1897, and May, 1898, 1,500
miles being on snowshoes. He left for
Europe in May. When the bishop
leaves Sitka on his way in, he must
travel more than 4,000 miles to his
northern mission among the Esqui-
maux. On the Yukon river three lan-
guages are spoken, namely, Tanana
and Ugegik. Bishop Rowe will take
only one Indian with him and will have
to carry supplies for 300 miles before
he can secure more. Such has been his
life for twelve years.

Bishop Rowe is a native of Toronto,
and his recent trip to England was his
first visit to the Old Country. While
in London he was entertained at Lam-
beth Palace by the Archbishop of Can-
terbury. Among the other guests were
J. Pierpont Morgan and Bishop Tucker,
of Uganda, South Africa. Bishop Rowe
said that Mr. Morgan was responsible
for his being able to carry out his work
in the far lone land of Alaska, the great
financier having furnished the neces-
sary funds. While in England Bishop
Rowe was entertained at Mr. Morgan's
home at Prince's Gate, London.

DISMISSES WIFE'S PETITION.

Watts vs. Watts Divorce Case Has Been
Finally Disposed of.

Vancouver, Oct. 12.—Mr. Justice Clem-
ent has dismissed the wife's petition in
the Watts versus Watts divorce case. On
the first hearing, Mr. Justice Clement
doubted his jurisdiction to try divorce
cases, and dismissed the petition on that
ground. An appeal was taken to the
Privy Council to test the question of
jurisdiction, and it was there held that
the British Columbia judges had juris-
diction. In the meantime Mr. Clement, the
first husband of Mrs. Watts, from whom
she had been divorced on the American
side, obtained a divorce himself on that
ground, and when the case came up for
final disposal before Mr. Justice Clement
on Saturday, he regarded the judgment
on the Dundas divorce as showing that
an American divorce could not be recog-
nized by British courts. Therefore he
dismissed the petition of the wife, ex-
pressing the wish that he could give costs
against the respondent. The respondent's
counsel asked for costs, but His Lordship
said he would certainly not give them to
him under the circumstances.

A "WHEEZY" CHEST.
Means your trouble is deep-seated.
To delay is dangerous. All the inflamma-
tion will be drawn out in one day
by applying Nervine. It penetrates
through the pores of the skin, relieves
inflammation and thus prevents serious
consequences. For sore throat, weak-
ness and tendency to colds, no pre-
scription is better than Polson's Ner-
vine. For nearly fifty years it has
been Canada's great household remedy.
Twenty-five cents buys a large bottle.

BATTLE FOR HOURS
WITH ANGRY SEATourists Marooned All Night on
Island Near Prince
Rupert.

Vancouver, Oct. 12.—Marooned on an
island all night in a tempestuous hur-
ricane was the unpleasant experience
of Mr. and Mrs. E. C. Crawshaw-Will-
iams of London, Eng., who have ar-
rived in Vancouver after a three
weeks' hunting expedition in the vicin-
ity of Prince Rupert.

Mr. Crawshaw-Williams was for four
years private secretary to Winston
Churchill, when the latter was com-
mander of the Colonial office, and at
the last election contested Northwest
Lancashire as Liberal against Lord
Lisgar. He is making a tour of the
world prior to devoting his entire en-
ergies to politics. His father is Mr.
Arthur Williams, for ten years mem-
ber of the British parliament for South
Carmarthen.

While crossing in a gasoline launch
one of the arms of the Skeena from
Prince Rupert to Porcher Island, a big
squal arose and several times it was
feared the boat would upset. Mr.
Crawshaw-Williams was accompanied
by his English bride and a friend, and
it was only after a six-hour struggle
that they reached the friendly shore of
the island. They carried no camping
outfit, intending to take up their quar-
ters while hunting in that district in
a hut already built. Owing to the
blinding rain, however, it was impos-
sible to reach the hut and the tour-
ists were forced to roll up in their
blankets and sleep on bare terra firma.
They were soaked to the skin but all-
including Mrs. Williams—stood the or-
deal well and suffered no ill-effects.

The party were rewarded by securing
a bear, some deer and smaller
game.

RUN DOWN BY TRAIN.

Man Killed in Fog on Railway Near
Revelstoke.

Revelstoke, Oct. 12.—A dense fog on
Saturday was responsible for a fatal
accident which occurred shortly after
6 o'clock west of the C. P. R. bridge.
R. Brill, who is employed at the big
Eddy mill, was on his way to work at
the mill and had crossed the bridge.
Brill was deaf and was evidently un-
conscious of the danger which threat-
ened him as an eastbound freight

News has been received of the death of
Fred Yuenling, at one time manager of
the Imperial Brewery at Kamloops, which
look place recently in New York.

Spain possesses the richest silver mines
in Europe. For many years she has pro-
duced annually about 120,000 pounds of
silver. But the oldest silver mines be-
long to Germany, and are the Erz Ge-
birge, between Saxony and Bohemia.

—Victor Heather, of the local police
 force, is one of the residents of the city
 who has succeeded in growing grapes
 of a high order. At his home at 1016
 Frederick street he has a good showing
 of ripe grapes which have matured en-
 tirely in the open air. The fruit is of
 the best quality and shows that Vic-
 toria can produce grapes second to
 none in lucidness and flavor.

—The nameless one was ultimately in-
 duced to say where a business could
 be found which was impossible of ex-
 pansion, and placed it among the farm-
 ers of the Channel Islands.

—That is a long way from Canada,"
 remarked Mr. Smith.

—But do Canadians think of nothing
 in the great world outside?" asked he
 without a pause in the tone of a man
 who must have a grievance.

—They do, but they think of Canada
 first," replied Mr. Smith. "And if my
 friend there would spend less time over
 supposed cases and dreams and illu-
 sions, and devote more time to thinking
 of Canada and his duty to it, he would
 find it much more profitable."

—This crushing reply was greeted with
 cheers and a hearty laugh, but the un-
 known had another question. He com-
 plained that Mr. Smith had not shown
 him why he should vote for Smith and
 not for Hawthorthwaite.

—My friend will not vote for me and
 he will vote for my socialist opponent,"
 said Mr. Smith. "For this reason—he has
 no vote in this constituency to give
 anyone."

—The nameless comrade tried to take
 a fall-out of Mr. Higgins after this fall-
 out, but was badly bumped himself.

At the close of the meeting Mr.
 Smith arose on his knees, and started
 out, this morning on a tour of the is-
 land.

—No," replied Mr. Higgins, and went
 on to tell what had been done in in-
 creasing the field tax.

—Between 1900 and 1905 no Chinese
 value of populating the middle west
 and thus creating a home market for
 the products of other provinces. The
 policy of the Liberal government had
 been to give the land to settlers; the
 policy of the Conservative party was to
 give the land to corporations and make
 settlement impossible. The C. P. R. had
 prevented western settlement for years
 until Mr. Sifton compelled it to select
 and patent the land coming to it under
 its enormous land grant. As soon as
 the prairies began to fill the prosperity
 of British Columbia began. A home
 market stimulated production, and to-
 day the Northwest market was the
 great market for British Columbia's
 products. Going through the islands
 recently he had seen the farmers pack-
 ing their fruit, and in every instance
 the farmers spoken to said their market
 was on the prairies. Ten years ago
 85 per cent. of the coal mined at Na-
 namo went to the United States; to-
 day 62 per cent. was consumed along
 the Pacific coast of Canada. This pros-
 perity of British Columbia had been
 determined by the sound reform policy
 of the Liberal government in creating
 home markets. (Hear, hear.)

"The Liberal policy of the govern-
 ment was one of reform and regulation
 versus the giving away of lands to
 companies without any control over
 their tariffs. The C. P. R. got the pub-
 lic lands, but the people got absolutely
 no return in any way."

"In the case of the C. T. P. and other
 railways an altogether different policy
 was adopted. The companies were help-
 ed by cash subsidies, but got no lands,
 and the government absolutely con-
 trolled their operations in the interests
 of the public. When the people appeal-
 ed to the railway commission they ap-
 peared as a thoroughly independent and
 impartial body from which they could
 expect redress if they had a fair case.

 plaint of Liberal expenditure. The facts
 were that the Conservatives spent forty

Uncommon Bits that Ornament When not in Use

¶ The new importations disclose many quaintly formed useful things, which properly belong when not in service, on the running shelf or side table in the dining room.

¶ Ideal for ornamenting the dining room of the country house.

¶ The Jugs from the famous Doulton and Wedgwood factories with underglaze decorations in old and unusual colorings are among the finest examples of this character.

¶ A look among these things is a refreshing experience.

¶ You're invited.
